

FOHAT ANALYZED BY QUESTION + ANSWER

- Is FOHAT in the UNMANIFESTED WORLD the same than in the MANIFESTED WORLD?
- No. In the UNMANIFESTED WORLD FOHAT is like EVERYTHING ELSE but an ABSTRACT PHILOSOPHICAL IDEA. When MANIFESTED, it FOHAT, becomes a REAL, VITAL POWER.
- Is this POWER DOMINATING THE MANIFESTED [or CREATIVE LOGOS?]
- NO. THE LOGOS IS DOMINATING FOHAT, USING IT AS TOOL to unite all forms and give them the 'first' impulse.
- Is that what we call, THE LAW?
- For ONE MAHĀ-MAHĀMANVANTARA, YES.
- What does FOHAT produce?
- NOTHING ON ITSELF. BUT WITHOUT FOHAT NOTHING CAN MANIFEST IN THE UNIVERSE.
- What causes THE ONE [BRAHMAN] to become TWO and THREE? [But FOHAT is also the original term - FOHAT, for VISHNU [pervader] of the ORIGINAL Rig Veda.
- And THE THREE into THE SEVEN and then into THE MANY?
- FOHAT.
- But what brings together the elemental atoms and makes them aggregate and combine?
- BRAHMAN through THE SEVEN ways with THE HELP of FOHAT.
- Is there an example in other scriptures for that cosmic law?
- In Greek mythology, for instance. Under the action of EROS [Fohat] EREBOS and NUX [Brahmā

Some might object: NO, it is BRAHMAN, causing FOHAT. But: if FOHAT would not be INHERENT in BRAHMAN, BRAHMAN would be LATENT FOREVER and NOT EVER MANIFEST.

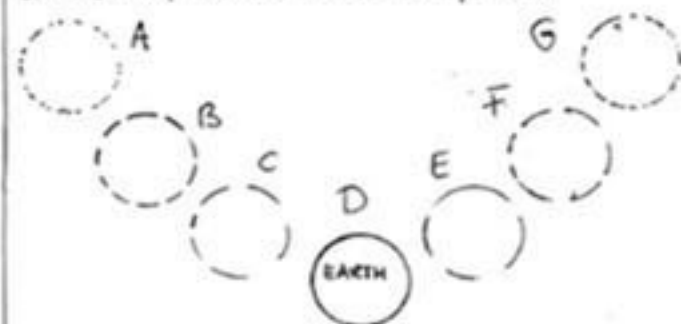

male-female] are born out of CHAOS [Mūlapru-  
kṛiti]. THEN ETHER and HEMERA, which are simply  
THE SPIRITUAL and the MATERIAL PLANE.

- How does FOHAT stand to THE ONE LIFE?
- FOHAT is CLOSELY related to it.
- Where does the Manvantavic DEITY emanate from?
- FROM THE UNKNOWN ONE.
- Which other name could we give to the UNKNOWN DEITY?
- FOUNTAIN SOURCE of UNIVERSAL MIND.
- And UNIVERSAL MIND uses FOHAT to build the UNIVERSE?
- YES. FOHAT is the REFLECTION of UNIVERSAL MIND. Without FOHAT the UNIVERSAL MIND could not build the UNIVERSE [UNIVERSAL MIND THINKS, thus REFLECTING FOHAT. 2.] FOHAT runs along THAT of which EVERYTHING is made, namely AKĀŚA, or on its [Ākāśa] SEVEN PRINCIPLES. THEN AKĀŚA is still ONE ELEMENT. THIS ONE ELEMENT is scattered by FOHAT into MANY ELEMENTS, atoms, molecules, etc., down to the building of ROTATING COSMIC FIRE, which either turn into SUNS or PLANETS. Or: BRAHMAN IS THE ARTIST, UNIVERSAL MIND IS THE ARTIST'S THOUGHT, FOHAT IS THE ARTIST'S ENERGY FORMING THE STATUE [or: FOHAT is the chisel] and AKĀŚA IS THE RAW STONE MATERIAL out of which the later STATUE is formed. And the STATUE? Is the MANIFESTED UNIVERSE. AUM to wisdom and knowledge.

THE PLANETARY CHAIN

Before I shall reveal to you the secret of the cosmic FORMULA, I anticipate the knowledge of something, which happens actually AFTER BRAHMAN, the UNMANIFEST, reflects in CHAOS, then withdrawing into the EVER TO BE UNKNOWN and leaving BRAHMAN, the MANIFEST and CAUSE of this UNIVERSE. This something, which happens is: CHAINS and ROUNDS.

What is a CHAIN, or PLANETARY CHAIN? Each visible planet or globe, our earth included, has six invisible, yet EXISTING fellow globes. Together with the one visible globe of this chain [in this case our earth] they build a SEPTENARY. So:

Each of these globes of that chain also corresponds to the monads in the human constitution, as each of the globes is a manifestation of a MONAD ITSELF. A MONAD is the SPIRITUAL SELF of EVERYTHING, a MONAD is also ĀTMA - BUDDHI, or the two HIGHEST principles of and

all planets, stars and suns of, or in, our universe are built in the likeness of older planets, stars and sun having existed before to the last great period of cosmic rest or pralaya, and so forth endless many incarnations and previous ago...

IN]everything, be it ATOM or MAN. These two HIGHEST ASPECTS or ĀTMA - BUDDHI could also be called SPIRIT and its vehicle SPIRIT-SOUL. Thus even an ATOM, for instance, is not an atom, but a temporary manifestation of an ANGEL or MONAD. AUM. We can also call the MONAD of a globe a PLANETARY or A PLANETANGEL, or a BUDDHA or DHYĀN CHOHAN. AUM. All these names denote in their HIGHEST significance a being, or intelligence, which is able to keep a planet in orbit, or to rule over one of the other six globes. But a MONAD is even more, it can also be the guiding spirit or CHRIST of a whole solarsystem and its planets [and their chains]. THEN we call this HIGHEST and FORMLESS SUPERCONSCIOUSNESS "BRAHMAN" of a solarsystem, or a male BRAHMAN, or BRAHMĀ. AUM. We perceive such a being as GOD, but there are almost ENDLESS many BRAHMĀS, or HIGHER SELFS of solarsystems, in this UNIVERSE, and they all are still subservient to BRAHMAN [neutral], the HIGHER SELF of them all and of this UNIVERSE. They, whom we call GODS or GOD, are, in turn, almost endless many steps away from BRAHMAN [neutral] and do NOT comprehend BRAHMAN AT ALL. And BRAHMAN? How high, how superior is "IT"? It is 'caused' by BEYOND, or PARĀ, itself, and BRAHMAN shall never know, it is even BEYOND it's BRAHMAN'S word, to a certain extent, even a BODHISATTVA [explanation later].

comprehension, therefore it is PARA [beyond] BRAHMAN or PARABRAHMAN, and is seen by BRAHMAN ONLY through a VEIL, called ROOT-MATTER or MŪLA PRAKRITI [also: ROOT NATURE]. This MŪLA PRAKRITI IS ABSTRACT ROOT NATURE, to US, but for BRAHMAN [neutral], or better for the MANIFESTED BRAHMAN, it is as real as MATTER is to US, therefore: when we

say "ROOT MATTER", we use a term, BRAHMAN would use for MŪLA PRAKRITI, and when we name the veil of PARABRAHMAN-ROOT NATURE, it is more correct from OUR point of view. So, WHERE then is GOD? Let go, oh LAD, it, or he or she or WE, is BEYOND COMPREHENSION to PARABRAHMAN. Therefore: When some people claim "GOD spoke to me", it is either an inferiority complex, a digestion problem, or most probably just their own EGO, or HIGHER SELF, trying to get a message through to the poor, disturbed person, who otherwise would not listen. But even more likely it was maybe just a disembodied spirit, who wanted to continue to distribute his same weird philosophies from when he was living in his physical body. NOW this DIS-embodied spirit is looking for a NEW body, who is foolish enough to yield to that non-

\* In ESOTERIC parlance we use the term EGO for the HIGHER SELF, instead of for the LOWER PERSONALITY. \* Prakriti is NATURE in all aspects, visible and (to US) invisible. However I do not use throughout the Book of Light the original SANSKRIT terms, but SANSKRIT, which evolved out of SANSKRIT.

arise. So when you hear preachers nowadays claiming, that GOD speaks through them, it is in truth just ONE fool speaking through another fool.

Back to our EARTH CHAIN, consisting of one visible and six invisible [yet present] fellow globes. Though our earth chain, like any other chain, consists of many MONADS, all those MONADS have a common source out of which they emanated. Throughout millions and billions of years these MONADS INDIVIDUALIZED more and more, until they reached SEPARATION on 4 planes in 7 globes. So:

9

At the twilight of MAHĀ-MAHĀ MANVANTARA, or the end of a 311.040.000.000 years life period, all globes shall melt into each other again. But FOR NOW they are separate individual globes. \* but there are also 5 globes on the three HIGHER PLANES.

\* In the RABDĀLĀH these FOUR LOWER PLANES are called [from below] QELIPPŌTH [shell], YETIRĀH [formation], BERĀH [creation] and ATZĪLŌTH [archetypal world].

and also SPIRITS, RULING these globes, though all united in the HIGHEST, which is -BRAHMA, the HIGHEST SELF of our Solarsystem. Furthermore: every globe of a chain has its own repletary constitution. \* And every globe can be called a planet with living conscious entities on it. And of course the sun itself is a sevenfold planetary chain. Can we see the other globes and their inhabitants, or can they see us? No. All 4th globes or D globes of all chains can, or could, see each other on their level, which is in this case OUR visible level. In the same way all A, B, C, E and F Globes can see each other on the corresponding A, B, C, E and F plane, an A globe seeing another A globe, or a B globe seeing another B globe AND its denizens and so forth BUT NEVER can "people" from an A globe "see" somebody on the B or C globe level, except of course HIGHEST evolved spiritual entities, but even THEY would have to adjust their structure to the structure of the globe and its plane, which they want to enter. If all D globes of all chains could see each other, why then can't we see moon men from the moon and MARS men from the MARS, and VENUS MEN from VENUS? The answer to this is part of the learning process of the student, and is as simple as every answer to a seemingly complicated ques-

\* not only each globe but also each atom. \* BUT: MINERALS on, for instance, an A-GLOBE of a chain (ours for instance) are SPIRITUAL-ETHEREAL TO US, but to an inhabitant of an A-GLOBE [or SPIRITUAL PLANE] minerals are as dense to him as they are TO US on our D-GLOBE

tion. A part of that answer has to do with

THE ROUNDS

All spirits have to descend on all globes of the chain, and one journey from globe A to G is called a ROUND. After seven rounds through all globes, including doms and evolutionary steps from stone, plant, animal, man and eventually GOD, each globe of the chain dies and sends out his life principles into a new center of differentiation or LAYA, thus creating seven "sleeping" energy centers, forming a crystallized sevenfold chain ready to surround itself with new globes. But FIRST, at the END OF THE SEVENTH ROUND, all life waves, or MONADS, enter NERVĀNA, a term which shall be explained later. We also could say "the old chain DIES" and falls into a period of dissolution or PRALAYA, and the new chain is not yet awakened, because all spirits are still in NERVĀNA or "at rest". This period of rest lasts as long as the SEVEN ROUNDS of action, namely 4.320.000.000 years. THEN AFTER NERVĀNA of 4.320.000.000 years all spirits or MONADS or LIFE WAVES descend on the [until then] crystallized Laya center A from the NEW chain and manifest the GLOBE A, the most etherial of the seven globes. After all monads have given first formation to GLOBE A of the new chain, their "surplus" of energy de-

\* SANSKRIT: OUT-BLOWN. Out only THE LOWER is out blown, THE HIGHER SURVIVES. \* Laya being a sleeping centre, with potential but latent energy in it [THEN it is thus awakened into life and begins to form itself into a new physical body.

ascends ONE STEP LOWER to the next, a bit less ethereal, LAYACENTER, which had been crystallized by GLOBE B of the previous dying chain. That lifewave or MONADIC SURPLUS [which simply means OUR SPIRITS] descends now on, and into, this LAYA CENTER, triggers its crystalline state and forms GLOBE B' of the NEW CHAIN, and so forth from GLOBE TO GLOBE until it reaches, or better forms, GLOBE 6' of the new chain, which completes ONE ROUND or about 617,000,000 years. Toward the end of each ROUND: Nirvāya [lower] for all entities + the SECOND round begins. With each new round the globes and the spirits attain more definite and individual structure. After SEVEN ROUNDS the chain dies, and the same process repeats itself for the NEW CHAIN to come. In ONE great period of UNIVERSAL activity or ONE MAHĀ MANVANTARA or 311,040,000,000,000 years 36,000 chains evolve out of each other. You could also call it 36,000 embodiments. We are now in the 18,001st embodiment 17,999 are yet to come. Behold on page 130 our EARTH [chain], evolving out of the MOON [chain], our MOTHER, AUM.

\*\*\* PLUS 36,000 Disembodiments equal 311,040,000,000,000 years. \* This counts for especially our EARTH CHAIN.  
 \* Whenever the MONADS, or SPIRITS, leave the GLOBE, this globe falls into "obscurations" until the SPIRIT re-enters on him in the NEXT ROUND.  
 \*\*\* The Moon evolved 10,800,000,000 years ago from a chain WITHOUT a PHYSICAL GLOBE [or D-Globe]

OBSCURATIONS [are not PRALAYA]

When the MONADS leave, for instance, GLOBE A of the PLANETARY CHAIN to "descend" onto GLOBE B of that chain, GLOBE A falls into OBSCURATION. The best way to explain that state of planetary consciousness would be, TO SAY THAT EVERYTHING IN THAT PLANET AND ON THAT PLANET IS "ON HOLD" OR IN A STATUS QUO. Until when? Until the MONADS return in the NEXT ROUND onto that planet. In other words: A couple of hundred million years from NOW we shall ASCEND and LIVE ON PLANET E, THEN without a PHYSICAL BODY, while this PLANET EARTH, or GLOBE D, shall be in a state of INERTIA or OBSCURATION. Shall EARTH then be an abandoned PLANET? Oh Lanoo, we are not alone. The GREAT SACRIFICE shall wait and be THE BEACON OF HOPE for those, who return, so that they might not stumble ON THE PATH awaiting them...

\* Obscurations last about 1/10 than the time needed for the SEVEN ROOTRACES accomplishing THAT ROUND.

- Oh MAHĀCHOHAN, reveal to me, when our UNIVERSE and our EARTH was born!  
 - So be it, oh Lanoo.  
 Behold...  
 A U M  
 36,000 embodiments of [what is now] our EARTH CHAIN, accomplish ONE MAHĀ-MANVANTARA or 311,040,000,000,000 years. Each embodiment [or CHAIN] lasts SEVEN ROUNDS, or 4,320,000,000 years and is followed by a PRALAYA, or period of DISSOLUTION, of equal length. Thus we receive 2x36,000 cosmic periods [Manvantara-Pralaya] or cosmic TIME UNITS, 4,320,000,000 terrestrial years per UNIT, which again equals ONE MAHĀMANVANTARA or 311,040,000,000,000 years. AUM. Where are WE RIGHT NOW, 1989, in that time period? Once we know THAT, we also know, when this UNIVERSE was born and when our EARTH was born. We are in the 18,001st embodiment from 36,000 possible embodiments. So there are a bit more than 17,999 embodiments yet to come. Of the 18,001st embodiment, or chain, we have passed more than 3 1/2 rounds, since each embodiment, or chain, includes 7 rounds. More precise: we have passed in this CHAIN, or EMBODIMENT, 3 1/2 rounds PLUS about 9,000,000 years. Therefore: 18,000 embodiments + 3 1/2 rounds + 9,000,000 years equals the time, that has

ON THIS POINT is the lifetime period of ONE CHAIN (7 rounds).  
 \*\*\* Because 9,000,000 years back was the MIDPOINT OF THE FOURTH ROOTRACE and THE MIDPOINT OF THE FOURTH ROUND.

passed since the REAWAKENING OF THE UNIVERSE. 3 1/2 rounds + 9,000,000 years equal the time, that has elapsed since the birth of our planet EARTH and its chain. All we have to do now is to fill in the NUMBERS.

18,000 embodiments*	= 155,520,000,000,000 years
+ 3 1/2 rounds of the 18001st embodiment.	= 2,160,000,000 years
Years which have passed from that midpoint of our FOURTH ROUND until NOW [1989]	= 9,000,000 years
<b>Total</b>	<b>= 155,522,169,000,000</b>

THE CENTRAL SUN\*

The SUN is where we are coming from  
The SUN is where we go  
But I don't mean the SUN YOU SEE  
although we'll have to pass through  
There is a light BEHIND the SUN,  
which we call DARKNESS now  
THAT'S where we all are drifting to  
And shall arrive, some day, some-  
where, somehow...

\* Dwelling itself throughout one Mahāmantava or  
at EACH Mahāmanvantava in a neutral condition, or  
LAYA. Nevertheless it is THE one attracting, also ever-emitting, life  
Centre. Thus THE CENTRAL SUN is the centre of Universal life-  
Electricity, and also the Focus of the supra-divine Essence of the  
Absolute [Unknown Absolute]. But THE CENTRAL SUN is NOT, as Jewish  
Kabalists think the container of THE GODHEAD, because the supra-  
divine Essence or Parabrahman is EQUALLY EVERYWHERE and  
when already differentiated, at the birth of every creation this  
Essence is THEN focussed in the Central SUN.

THE TRUE NATURE OF THE SUN.

MAHAT, or UNIVERSAL MIND, is THINKING ESSENCE WITHOUT A THINKER. PURE WISDOM but not yet expressed, not yet MANIFESTED. AUM. When that THINKING ESSENCE is ACTIVE during Mahā-Mahāmanvantara, or a GREAT PERIOD OF COSMIC ACTIVITY, the THINKING ESSENCE causes what WE call: THE SUN. SUNLIGHT is what happens, when THE THINKING ESSENCE thinks that THE UNIVERSE SHALL BE. THE SUN OF OUR SOLAR SYSTEM [and all other SUNS] is a MANIFESTATION OF A SPIRITUAL THOUGHT PROCESS. Oh Lanoo, when you think and live SPIRITUAL you radiate on your plane the same light than THE SUN on ITS plane. AUM to wisdom and knowledge. AUM.

→ How to beware of BLACK MAGIC and its creatures, oh Lanoo? BE PURE, BE SIMPLE, BE INNOCENT!! THEN the evil shall REFLECT from your protecting shield of innocence and shall be thrown back upon the [evil] sender and destroy him. AUM.

\* BUT THE FINAL TRUTH IS BEYOND MAHAT or Light, because the correct GREEK TRANSLATION of the GOSPEL according to JOHN is: "And the Light shines in the shadow and the shadow took it not up."

THE SAME COSMIC PROCESS AND HOW IT CAUSES THE DOWNWARD POINTING TRIANGLE.

BRAHMAN emanates SEVEN POWERCENTERS, SEVEN POWERCENTERS called THE SEVEN RAYS. AUM TO THE SEVEN RAYS. Our visible and invisible UNIVERSE is built on them. Once they "awake" ON THEIR cosmic plane, they follow the example of BRAHMAN [Law of analogy] and surround themselves with globes, visible and invisible, even on the ARŪPA level. Altogether they build a universal chain on 7 cosmic planes [each plane is sevenfolded in itself]. Each globe in that chain represents almost endless many globes on its level because each ray of the SEVEN emanates 7x7 rays

and each of the 7x7 rays emanate 7x7 rays and so forth ad infinitum, or I should better say, ALMOST ad infinitum.

In the VISIBLE [our] universe, the rotation of the globes is often RETROGRADE [in different evolution to each other] even in the same SOLAR SYSTEM.

SPRIT [Brahman] is a descending trinity, because it contains in itself the UNKNOWN, CHAOS and the RE-

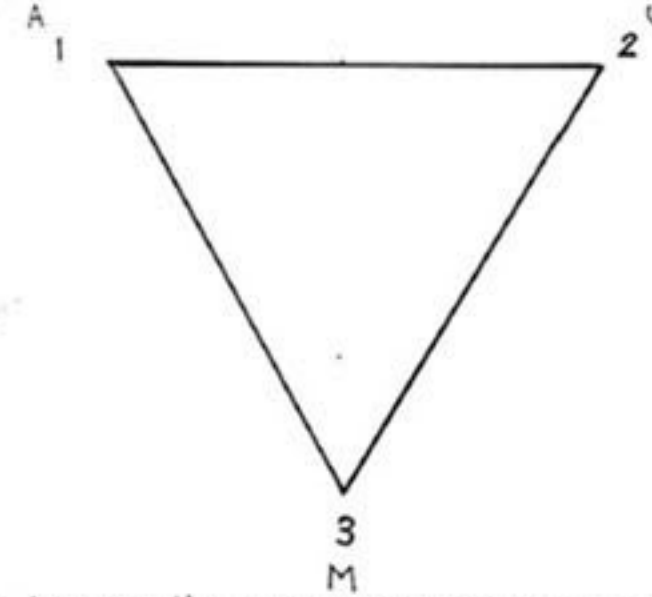

\*\*\* BRAHMAN causes the rays to do so... [and BRAHMA passes the impulse on to ITS seven rays.]

\*\*\* VENUS and URANUS which results in MINUS-TIME AUM. 2x FORMLESS plane. A-not, RŪPA-forms.

• each of the SEVEN RAYS contains the individuality of the other 6 rays plus its own individuality.

• since every ROOTSPRIT contains a "limited" amount of MONADS.

FLECTION [in CHAOS]. These three are of same value AND connected with each other, which makes them a triangle with three sides of the SAME LENGTH. And since SPRIT [Brahman] has left the source [PARABRAHMAN], BRAHMAN is a DESCENDING TRINITY or [downward pointing] TRIANGLE. AUM.

And because the DESCENDING TRINITY is also sustaining the UNIVERSE, it is called VISHNU, which is: THE SUSTAINER. AUM to VISHNU, the downward pointing triangle. AUM.

SPIRITUAL AND MINERAL MONAD.

There are TWO MONADIC SUPER POWERS, CONSCIOUSNESS-wise being OPPOSITE to each other, though emanating from ONE SOURCE. The Monad from which all individual MONADIC Rays of Men emanate is called THE SPIRITUAL MONAD, constituting the ĀTMA-BUDDHI or absolute immortal essence [uncreated of man]. Everything else are just REACTIONS to that superior Monad [containing all INFERIOR MONADS].

SPIRITUAL MONAD CAUSING THE ĀTMA IN YOU.

### THE ULTIMATE ATOM.

The true nature of the ultimate Atom and why Science still knows nothing about it. THE BOOK OF LIGHT teaches that ALL Elements Molecules, Particles, Atoms etc. are in essence THE SAME. In other words: There is no difference between an Atom and its [surrounding] Electron. There is no difference between, for instance, Hydrogen and Oxygen, or Carbon and Nitrogen, Calcium and Sodium, etc. etc.. Name me ANY Element and I tell you: They are all the same, because they all are made of the same smallest particles. But aren't ATOMS the smallest particles in manifested nature? No, at least not the Atoms of Science. If they would be the smallest particle why then can we split them as it happens in a Nuclear reaction?

There fore: Everything is made of the smallest particles, but these smallest particles are NOT the Atoms of Science or their Electrons, etc. but those particles these Atoms and Electrons are MADE OF, or THE ULTIMATE ATOMS.

These ultimate Atoms are by far more subtle and small than the Atoms of SCIENCE.

Example: Webster's dictionary defines an Atom as "...extremely small bit of anything..." "...smallest

-64d-

part of an element..." EXTREMELY small is correct [because not the smallest]. The second definition is absolutely wrong. The SMALLEST particle of an Element is THE ULTIMATE ATOM. Or: The Atoms and Electrons of Science are made of Billions of SMALLER particles and THESE particles are the TRUE ATOMS, although they still do not deserve that name, because it means "INVISIBLE". The smallest of the smallest [in manifestation] IS divisible, but only ONE MORE TIME and THEN they enter [as energy centers] THE ETHERIC PLANE and from there they REFLECT [their highest aspects] INTO THE MONAD. How does Science define an Atom? "...electrons revolving about a positively charged nucleus containing Protons and Neutrons..." Agreed, but: These Protons, Neutrons and electrons [manifestation of THE HOLY TRINITY or TRIAD, or Atma-Buddhi-Manas], these particles are not ULTIMATE particles but are consisted of SMALLER parts called ULTIMATE ATOMS, being ONE STEP before ABSOLUTE DISINTEGRATION and these smallest particles are THE ULTIMATE ATOMS and EVERYTHING in nature is made of them. And these ultimate Atoms are all OF SAME NATURE AND STRUCTURE. But doesn't THE BOOK OF LIGHT teach that no two Atoms in manifested nature

-64e-

are the same? that counts a) mainly for what SCIENCE calls an Atom, and b) also for THE ULTIMATE ATOM, because there IS something, the ONLY thing in which one ULTIMATE ATOM differs from the next and that something is:

### V I B R A T I O N

They differ in vibration. They are all the same but they vibrate in different frequencies. WHAT makes THE ULTIMATE ATOMS vibrate in different frequencies? It is THE ABSOLUTE ETERNAL UNIVERSAL MOTION, which is the ONLY true perpetual motion known to Gods and Men. Glory, glory to THE BOOK OF LIGHT. It is THE GREAT BREATH which manifests at each awakening of all universal life into THE FIRST PRIMORDIAL ATOM containing all ULTIMATE atoms. THEY cause LATER all Elements giving them [because of different vibration] the APPEARANCE of being different as ELEMENTS when in truth they are all the same. Aum to wisdom and knowledge. Move I do not want to reveal about the nature of the ULTIMATE ATOM which, for instance, can be influenced by A MANTRA. It was exactly this, and further, knowledge or the ABUSE of it during Atlantean times which caused the heavy Karma we are outliving right now...

The home of the ULTIMATE ATOM is the veil of Para-brahman, which is MŪLAPRAKRITI. MŪLAPRAKRITI is the abstract Father-mother of all MATTER. But it is only abstract to us. To the Highest Root-Spirit Mūlaprakriti is as real and dense as a chair is real and dense to us. Mūlaprakriti is also the home of all Monadic life, or should I say that it is the PARABRAHMIC IMPULSE which makes Mūlaprakriti the mother of all Monadic life, because EVERYTHING is made of Monads, your Atma-Buddhi AND the chair? The only difference is: In the chair the Monad is not as fully expressed as in your physical body, and at the end of the journey it [the Monad] is liberated again and THEN fully conscious.

BIRTH OF AN ATOM. PHASE ONE

A mineral Monad "touches" the INTERETHERIC PLANE, dropping a part of its ESSENCE thus causing, after having passed LAYA, or the vanishing point of matter into HIGHER SPIRITUAL realms [7th state of matter or 1st degree of SPIRIT]

an INTERETHERIC ATOM.  
Vibrations per second: 24,300,000,000.

ATOM, though, is the wrong term, because ATOM derives from the Greek A-TOMOS or: NOT-DIVISIBLE. THEN they thought, that the "PHYSICAL" Atom was not divisible. TOM would be the correct term.

\* better: REFLECTING, because we are made in "His" (the Monad's) IMAGE ...

-66-

PHASE TWO

The INTERETHERIC ATOM "condenses", always sustained by THE MONAD into the ...

... ETHERIC ATOM. Vibrations per sec.: 8,100,000,000. When I say ETHERIC or INTERETHERIC ATOM I always also mean ETHERIC or INTERETHERIC MOLECULE, because the difference between ATOMIC and MOLECULAR vibration on THESE planes is not as great as on our PHYSICAL plane [See page 69].

-66a-

PHASE THREE

Diving "deeper", or move from INSIDE - OUT SIDE, the MONADIC EFFLUX touches the INTERATOMIC PLANE, causing a "densev"...

... INTERATOM.  
Interatomic vibrations per second:  
2,700,000,000.

-66b-

PHASE FOUR

Evolving more and more SVĀBHĀVA [Essential characteristic], the Monad causes an...

... ATOM on the META PHYSICAL PLANE. ATOMIC vibrations per second: 800,000,000.

\* Nobody ever "saw" an ATOM. It belongs totally to the realms of META PHYSICS [beyond Physics].

-67-

PHASE FIVE

Descending on the INTERMOLECULAR PLANE the MONAD[S] definitely prepare the field for the [to be] Molecules by causing an...

...INTERMOLECULE.  
intermolecular vibrations per sec:  
300,000,000.  
The next step is: THE ULTIMATE ATOM  
and then ...

-68-

... PHASE SIX.

Being drawn onto the MOLECULAR COUR [physical] PLANE, the MONADIC ESSENCE surrounds itself with MOLECULES causing a...

... PHYSICAL BODY. Molecular vibrations per second: 100,000,000.  
Thus, on Landa, all matter of the Universe "hangs" like puppets on the strings on MONADS. There was never anything else. And all SIX PHASES are overshadowed by the SEVENTH which is THE HIGHEST or BRAHMAN.

-69-

ATOMIC AND MOLECULAR VIBRATION.

LIGHT IS HIGHEST VIBRATION, MATTER IS LOWEST VIBRATION. THE LOWER THE VIBRATION, THE DENSER THE MATTER.  
BUT: 2. THE HIGHER THE atomic vibration THE DENSER THE MATTER.  
This only SEEMS to be a contradiction and has to be explained.

Axiom 1 refers to the MOLECULAR vibration or to the VIBRATION, or MOTION, of MOLECULES in relation to each other, while axiom 2 is concerned with MOTION or VIBRATION INSIDE THE ATOM, or of the PARTICLES BUILDING AN ATOM. Let us FIRST analyze axiom 2.

An ATOM is a positive/negative charged energy center around which particles or other energy centers move in extreme high frequency of vibration. For example: The particles inside a WATER ATOM move SLOWER or in LOWER FREQUENCY OF VIBRATION, than the particles in a STONE-ATOM. WHAT CAUSES THE LOWER or HIGHER FREQUENCY OF VIBRATION in the WATER or STONE ATOM? It is the MONAD. Once the MONAD has gained all consciousness in the THREE LOWER ELEMENTAL KINGDOMS and then in the MINERAL KINGDOM it [the MONAD] ascends into the VEGETABLE KINGDOM and LOWERS ITS VIBRATIONS, causing

\* meaning the ultimate Atom AND the Atom of Science.

-70-

a VEGETABLE ATOM. Throughout many Manvantaras the MONAD ascends HIGHER and HIGHER until it reaches the HUMAN KINGDOM, becoming ... US. Thus we can say [from an ATOMIC point of view], that, the HIGHER evolved and SPIRITUAL a BEING, the LOWER its ATOMIC vibration, and it appears more ETHEREAL, because THE ATOMS of its physical body have a LESS CHEMICAL COHESION than before. But in any case the ATOMIC-CHEMICAL vibrations are caused by the MONAD, whose nature is MOTION. This MOTION OF THE MONAD NEVER CEASES and becomes ABSTRACT MOTION in NIRVANA, and that is why they say, that PARABRAHMAN, if ANYTHING, is ABSTRACT MOTION, or INCOMPREHENSIBLY HIGH MOTION.\*

Thus the true nature of an ATOM and of EVERYTHING ELSE is = ENERGY FIELDS in MOTION. AUM.

Now you know, why the CHEMICAL COHESION or VIBRATIONS are LESS STRONG in SPIRITUAL PEOPLE and STRONGER in MATERIALISTIC and more worldly people, causing them to have coarser physical bodies. I go even further: Worldly thoughts are [from that point of view] HIGH VIBRATIONAL and SPIRITUAL THOUGHTS LOW VIBRATIONAL.

\* VIBRATION THE CLOSEST POSSIBLE AROUND THE ZERO-POINT. THE PRIMORDIAL, or FIRST, COSMIC MATTER Science is so desperately searching for is nothing but ALL MONADS in eternal motion. LATER many of them condense into Cosmic Nebulae, etc.

Why then do we say of somebody spiritual, that he, or she, is a "high vibrational" spiritual person? By THAT we [unconsciously] mean the MOLECULAR STRUCTURE or MOLECULAR APPEARANCE of that person, because the MOLECULAR vibration in or of, Spiritual people is INDEED very HIGH. But the particles of their ATOMS, or INSIDE their ATOMS, vibrate LOWER, the more SPIRITUAL and "ethereal" a person is. Therefore we can say, that MATERIALISTIC, worldly PEOPLE have HIGH VIBRANT ATOMS and LOW VIBRATING MOLECULES, and SPIRITUAL PEOPLE have LOW VIBRANT ATOMS and HIGH VIBRATING MOLECULES. AUM. The SAME counts for STONE and PLANT, for instance. A STONE has HIGH VIBRANT ATOMS or ATOMIC PARTICLES and LOW VIBRATING MOLECULES, while a PLANT has HIGH VIBRATING MOLECULES and LOW VIBRATING ATOMS [compared to THE STONE].\*\*

Let us INTENSIFY the knowledge of ESOTERIC SCIENCE, by applying it to the DIFFERENT ATOMIC and MOLECULAR STRUCTURE in SOLIDS, LIQUIDS and GASES.

\*\* ESOTERIC SCIENCE, or THE BOOK OF LIGHT does not accept the definition of SCIENCE, that a MOLECULE is the smallest particle of an element, because even that SMALLEST elemental part shows, once separated, different INDIVIDUAL PROPERTIES, although they ALL DERIVE FROM ONE ELEMENT.  
\*In THIS case consisting of TWO or MORE ATOMS.

when we apply enough heat to a SOLID it eventually turns into gas. The MOLECULAR vibration of that SOLID is LOWER, than that of the GAS, or better: of the solid, which TURNED into GAS. BUT: THE INNER STRUCTURE OF THE ATOMS, or the CHEMICAL COHESION, is ALWAYS the same. Take, for better understanding, the example of ICE, WATER and STEAM. Apply HEAT to ICE, and the ICE molecules shall vibrate HIGHER and turn into WATER. Apply more heat to WATER, and the WATER MOLECULES shall vibrate HIGHER\* and turn into STEAM. BUT THE ATOMIC STRUCTURE and VIBRATION of ICE, WATER and STEAM is THE SAME. In other words ICE, WATER and STEAM are build of THE SAME ATOMS, but of DIFFERENT MOLECULES. But all these ENERGY CENTERS, be they Atom or Molecule are CAUSED and TRIGGERED by MONADS, which are SPIRITUAL POWERCENTERS, or POINTS, WITH NO EXTENSION.

THE SPECTROSCOPE LIES.

Why Hydrogen of the Sun [or other central stars and also planets] is not the same than Hydrogen on Earth [atmosphere].

The Heterogeneity of Elements is almost infinite although all elements enter on our plane into the composition of AIR, WATER, EARTH and FIRE. But when the Atom was born it entered into the composition of THE ROOTS of what would LATER become Air, Water, Earth and Fire. And that root is AKASA-ETHER - air, AKASA-ETHER - water, AKASA-ETHER - earth and AKASA-ETHER - fire. In other words: Air, water, Earth and Fire THEN were not what they are NOW. THEN the Atom was almost pure. It lost its purity or virginity, once caught by our [or another] planetary atmosphere. That process of differentiation shall be reversed when at Pralaya the Atom moves or withdraws WITHIN instead of INTO SPACE. Then it shall be reabsorbed into Akasa or Root ether.

However, Elements are not absolutely homogeneous, as it is impossible to eliminate intermediate varieties. Or: The Hydrogen of, for instance, fixed Stars is NOT the same than "our" hydrogen. There is no molecular identity with Elements in

different Solarsystems or and galaxies, etc. The Spectroscope is lying to us, because once light or any kind of radiation enters our realms it has been tainted by OUR atmosphere and it has thus become impossible to analyze, for instance, even the "light" of our Sun, having changed its nature from the moment it left the source until it entered our Earth plane and atmosphere. If you want to compare the Spectre of two bodies, they would have to be examined under identical states of temperature, pressure and all other physical conditions [not to speak of the spiritual or ALCHEMICAL conditions]. In other words: If you want to analyze the true nature of SUNLIGHT you would have to rebuild a or THE SUN in a laboratory, which is impossible, because the Sun is not a Fireball but a centre of electromagnetic energy reawakened out of Laya. Science could spare all that money and feed the hungry. All they have to do is, to study THE BOOK OF LIGHT, which reveals the TRUE nature of the Sun and of "Sun light". From birth to death, or from Manvantara to Pralaya an Atom undergoes changes that would blow the Mind of a PLANETANGEL. This is all caused by FORT or different Fohets, binding together UNLIKE natures and separating similar temperaments.\*\*\*

Hierarchy - order of appearance at each MAHA-MAHAMANVANTARA. Question and Answer.

- What is FIRST?
- There is no FIRST. You mean what happened more than 150,000,000,000,000 year ago at the reawakening of all Universal Life?
- Yes.
- Now we can say FIRST. First there is a GOD-POWER at the beginning of any period of manifestation. IT contains EVERYTHING.
- How does it emanate all other beings into SPACE?
- By thinking. IT thinks US and EVERYTHING ELSE. And whatever it thinks becomes MANIFESTED.
- In which order does it think?
- It thinks GODS. PLURAL POWERS or ELOHIM.
- Then it emanates other beings?
- No. THEY are emanated by THE GODS.
- Who are these SECOND EMANATIONS?
- They are THE MONADS.
- Then the Monads descend into incarnation?
- No. THE MONADS NEVER LEAVE THEIR PLANE. But they EMANATE SOULS, our Souls for instance [also consisting of MONADS].

Only ONCE, THEN the emanations think whatever emanates from them. AUM to THAT, because by THAT the IDEAS of, or in, the DIVINE THOUGHT are "pointed" on COSMIC SUBSTANCE which then to us appears as the LAW of NATURE or the DIVINE LAW. But it is a THOUGHT without a THINKER. JUST THOUGHT ENERGY or MENTAL MATTER or MAHA-AUM.

-72d-

- Where do our SOULS come from?
- They are and were always contained in the [our] MONADS?
- Do the ATOMS come from THE SOULS?
- Yes. But not the PHYSICAL ATOMS. The PHYSICAL ATOMS are just molecular aggregations of atomic elements. Atoms exist on the borderland of the ASTRAL PLANE [G. de Purucker].
- Where does THE PHYSICAL ATOM come from?
- It is the garment of the ETHERIC ATOM. So the order of appearance from GOD to ATOM is:

\*\*\* or better: METAPHYSICAL. \*Souls are "inferior" MONADS. \*\* And its FIRST REFLECTION, BRAHMAN, which is WITHDRAWING again after having CAUSED THE MANIFESTED BRAHMAN, or "GOD". \*\*\* BUT: THE THOUGHT is just CONTAINED in "God" and unfolds. God does not think. God is more a CHANNEL FOR MENTAL MATTER. AUM.

More about LAYA.

Before we analyze atomic and molecular vibration, we have to discover MORE [through question and answer] about the nature of LAYA, since everything comes from LAYA and disappears again into LAYA.

- What have LAYA and NIRVANA in common?
- Laya is the Nirvana of all things less or lower than it [Laya].
- Do these things then evolve or disappear from downwards to upwards?
- Rather more INWARD into something HIGHER. For example: when you die you withdraw inwards but you evolve [at the same time] HIGHER, passing LAYA-AUM.
- What have Plato's and Pythagoras' TRIANGLE to do with LAYA?
- The triangle symbolizes clearly the ORIGINATING COSMIC POINT from which all DIVINE THINGS SPRING. LAYA is where the APEX of the triangle vanishes into manifestation. AUM.
- What relationship does LAYA have to the SOUL of an entity?
- A SOUL is the VEHICLE of a, or the, SPIRIT. The Soul manifests in matter, because the Soul is or better it BECOMES through that manifesta-

\* though the next passing point or LAYA point is waiting, for instance at the moment of second death when your Astral body dissolves.

tion a SUBSTANTIAL PORTION OF THE LOWER ESSENCE OF THE SPIRIT. When the Soul [or Soul-Monad] touches a plane BELOW itself, there is or comes a point where UNION allows INGRESS and EGRESS [entering and exit] to the consciousness. This "point" is LAYA.

- [I don't understand...]
- Never mind. Your Higher Self DOES understand. Continue reading THE BOOK OF LIGHT.
- Is Laya Heterogeneous [differing in structure]?
- No. Laya or a LAYA-CENTER is a center in "HOMOGENEOUS" substance [the same in structure].
- Why homogeneous in quotation marks?
- Because Homogeneous is still a too materialistic term for something like LAYA, which is more a state of CONSCIOUSNESS rather than a COSMIC PLANE.
- What is PRA-LAYA or PRALAYA?
- A combination of the noun form [root is li] laya and the prepositional prefix "pra", which means "continuous", "forward", "towards". Thus pralaya is: CONTINUOUS DISSOLUTION.
- Where is the Laya of THE SUN?
- At its CORE. It is the central point and likewise does each planet have its LAYA. AUM.
- On which dimension is LAYA?

-72f-

- Dimensions have nothing to do with LAYA, neither do any positions in space.
- Why?
- Because LAYA is not of physical and material nature.
- What is LAYA for atoms, sun, planet, human being or ANY living being, likewise!
- For all things \*BELOW\* it [Laya] is the DISAPPEARING point, for all things ABOVE it [Laya] is the ENTERING point.
- Are material and spiritual things alike at their center?
- No. A material thing is the DENSEST at its center. A spiritual \*thing\* is the most DIVINE at its center.
- Is Laya at the center of a material thing?
- Yes, but not as matter, though you can call it LAYA-CENTER.
- I don't understand.
- A Laya center is THE SEVENTH (or highest) DEGREE OF MATTER or also: THE FIRST (lowest) DEGREE OF SPIRIT. AUM.
- Is Laya NIRVANA?
- Laya is THE NIRVANA OF MATTER, of ANY entity of which Laya is the center.
- What is Laya to CONSCIOUSNESS?
- In the ocean of consciousness [superspiritual ether] Laya is a VORTEX, a PRIMORDIAL POINT, from where the 6 principles below it manifest through Souls and Egos, etc.
- Why SIX principles. Isn't Man SEVEN principled?

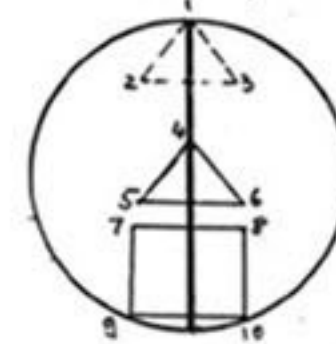

- The SEVENTH or ATMAN is where LAYA IS. From that channel or spiritual point, the SUPER-SPIRITUAL breaks through a BARRIER [Laya] into individualized Life.
- Could you analyze the point through which the MONAD breaks in the BEGINNING of manifestation?
  - Through LAYA, or through a neutral, vanishing point [where Spirit becomes Matter].
  - Where is the Laya center of our ATMAN or highest SPIRIT-MONAD?
  - It is a SUMMIT of the FOURTH COSMIC PLANE [Archetypal world]. THAT is where the element is "in" which we find the LAYA-CENTER OF OUR UNIVERSAL COSMIC SELF or ATMAN [connected with OUR Atmas or Monads. AUM].
  - Are LAYA and SKANDHA the same?
  - Skandha is a LAYA CONDITION. Soon you shall understand.
  - When a, for instance, SOLAR SYSTEM is DESTROYED [during Pralaya] what happens to its COSMIC DUST? \*\*
  - The cosmic dust rests in LAYA out of which it shall be reawakened at mauvartava, once touched by the MONAD, into a precometary - cometary - sun - planet state. And all this ROTATING.
  - What about THE HIGHEST principles of a world at Pralaya?
  - They rest in PRAKIRVANA.

\* or vice versa in the case of, for instance DEATH of an entity. At birth and death we pass through LAYA. AUM. \*\* invisible to even the most precise microscope.

-72g-

- In which order does Laya become the center of active Life?
- First on a higher plane and later manifesting through and by the LOWER planes.
- Is Laya a CHANNEL?
- Yes. Vitality of the superior spheres pours down through that channel into LOWER PLANES [or states of matter], inspiring, vitalizing them.
- It sounds very MECHANIC...
- There is a DIVINE DRIVING FORCE behind these mechanics.
- When does "something" become ACTIVE LIFE?
- Whenever it quits the LAYA state. THEN it is drawn into the VORTEX OF MOTION.
- How did the entrance of spiritual [and then ethereal] man happen into matter?
- It began through a LAYA center and then down the ten steps of the hierarchical scale.
- The spiritual essences touched THE HIGHEST DEGREE OF THE LOWER PLANE, stirring its [the lower plane's] LAYA.
- How were the spiritual essences directed to that lower plane?
- By KARMA, or KARMIC ENERGY.
- How could you demonstrate the descent of this spiritual essence downwards [passing 10 hierarchies] through LAYA in to matter?
- better substance.

- This is a, or THE, Circle, containing all manifested worlds, visible AND invisible, and of ALL DIMENSIONS.

BEYOND that circle is...

- Which number symbolizes LAYA?
- The number ONE. From there the spiritual essence descends. But the point forming the apex of the first triangle is LAYA, or: a LAYA CENTER.
- What do the two triangles and the one square symbolize?
- They ARE the representation of nature's symmetrical architecture.
- Do the upper parts descend too?
- No. They remain above. It is the LOWER planes, or parts, which are secreted spiritually, ethereally and physically "secreted and excreted step by step plane after plane, and cast forth like foam on the substratal waves of life." [G. d. Puvviker].

FOHAT or

The reason why alike attracts alike [but not forever...], or: FOHAT'S SONS being at the same time his BROTHERS.

Alike attracts alike but not forever. Take for instance two people in love with each other, living happily together forever. Forever? Even the greatest love on earth does not last forever. Death makes an end of it. Then the lovers meet again in another life, but THEN [maybe] not anymore as lovers but as, for instance, brother and sister, mother and daughter or just as two very good friends, because the Spirit wants to experience ALL kinds of love in order to assimilate these various experiences to its bliss-nature. AUM. What about two ENEMIES? Do they meet again? Alike attracts alike. Hate attracts hate, Fear attracts Fear, Greed attracts Greed, jealousy attract jealousy, ambition ambition, corruption corruption, passion passion, ignorance ignorance, one big Hitler many little Hitlers, and Love attracts Love. AUM. Alike -be it good or evil- attracts alike and then they come closer and closer and closer until...they EMBRACE each other LOVING OR FIGHTING. Who, WHAT, separates them Life after Life? Is it Death? That is just an EFFECT. IN

truth it is FOHAT, cosmic electricity, who separates lovers and haters as well as two single Atoms. Without Fohat the whole world would clash together in ONE POINT and fit easily into a purse. But it is THE THOUGHT process of, or IN, THE SEVEN RAYS which causes FOHAT to "create" VOID or SEEMINGLY void between the particles [and between lovers AND haters].

- But why, oh Maha Chohan, does Fohat have Seven Sons who are his BROTHERS?
- Because of THE SEVEN RAYS and their sevenfold subemanation causing [later] galaxies and Solarsystems with everything in it.
- Explain please, oh Great One.
- The FIRST seven Rays THINK, generating Cosmic Electricity or FOHAT, and thus emanating OTHER sevenfold sets of SEVEN RAYS. It is actually FOHAT bringing them forth or doing all the work, that is why we could call these emanations "FOHAT'S SONS". But since Fohat or cosmic electricity is a result of a DIVINE THOUGHT process, these emanations are actually caused by that [Thought] power which awakens FOHAT. Thus the 7 Rays are Fohat's FATHERS and the Father of all emanations awakened by FOHAT, which makes the emanations BROTHERS OF FOHAT. Fohat is the steel and the Thought is the rider [or all the "vibes" the PRIMORDIAL SEVEN].

which is exactly what happens at the end of each period of cosmic activity.

- Where did the HIERARCHIES come from?  
- The divine ray streams down, cutting or passing the circumference of that circle, passing from hierarchy to hierarchy [1-10]. While the DIVINE RAY descends [through reflection] IT EVOLVES THESE VARIOUS HIERARCHIES FROM ITSELF. That is where they come from. They are LATENT in the RAY.

- Where does THE DIVINE RAY come from, BEFORE he or IT passes LAYA or the circumference of the circle?
- I answer with Dr. de Purucker: "...from the highest of the highest, from what is to us the unknown of the unknown, the Inmost of the Inmost..." or: from BEYOND the circle. Later the DIVINE RAY returns to its source BEYOND the circle.
- How is the order of appearance in connection with LAYA after a period of cosmic rest, or PRALAYA.
- A) The thrill of waking life returns to the "sleeping" Monadic hosts. B) The life waves advance downwards, causing DIFFERENTIATION in Laya or in the correspondent Laya-Centers.
- Does that initiate the formation of a Planetary chain?
- Yes. The FIRST of the sleeping Monads, feeling the inflow of the LIFE FORCES [coming from higher spheres] were those who formed globe A of the

Earth chain.

- What is behind the Sun's Laya?
- The TRUE SUN, which is invisible.
- What then is the VISIBLE Sun?
- It is the AVRA of the Laya center.
- What is the size of the TRUE Sun?
- You could hold it in the palm of your hand

"There is nothing that men resent so much, nothing that so greatly arouses their ire and their hatred, as to have their cherished beliefs disturbed." G. de PURUCKER, Fundamentals of the Esoteric Philosophy.  
Another answer as to where the Hierarchies come from would be: THEY WERE ALWAYS THERE! They are, like the ONE RAY UNCREATED BY AJA or ANUPAPADALCA. And so it is with the Divine Ray. Uncreated. They are uncreated. They never were born and they never shall die. And that is exactly the true nature of our true Spiritual Selves. We are all unborn, uncreated and therefore IMMORTAL. This immortality is "interrupted" or EXPERIENCE by our personality during periods of incarnation. And that incarnation indeed is temporary. Saints may live 100,200 or even 1000 years, but not forever. AUM to wisdom and knowledge.

Questions and answers to BIRTH and DEATH of THE EARTH.

- Has EVERY planet, including our Earth, been a cosmic nebula, comet, sun and then a planet?
- YES.
- Are METEORITES fragments of disintegrated COMETS?
- NO. They aren't cometary material at all. Comets or cometary material are just one stage less ethereal than a NEBULA.
- Why then does even ESOTERIC SCIENCE teach us that COMETS contain meteoric stuff in them?
- Because during their journey through space comets gather and attract WASTE-MATERIAL of the UNIVERSE, some of it being METEORIC STUFF.
- What then ARE Meteors?
- They are waste-material of former SUNS, when the SUN dies it becomes DENSE and then EXPLODES into METEORITES [See Death of our SOLAR-SYSTEM].
- Why do COMETS LOSE this meteoric stuff again?
- Because THE SOLAR ATTRACTION for such material is much stronger than the WEAKER attraction\* of THE COMETS.
- Is every planet, our Earth included, for a time a SMALL SUN?
- YES, during BIRTH and DEATH.
- \* or should I say MONADIC COHESION?

-78-

- WHEN exactly does that happen?
- Just before leaving the cometary stage and BEFORE becoming materialized enough to be a PLANET [any chain...].
- Why does the, or A, comet approach THE SUN with its tail backwards and head forwards, but when it LEAVES THE SUN [after circling it] the tail PRECEDES and the HEAD FOLLOWS?
- If not, THE COMET WOULD BE SWALLOWED. It is a decision made by the RULING ANGEL or FUTURE PLANETARY of THE COMET, resulting in: REPULSION.
- So a COMET can be the PRE-BIRTH STATE of either a SUN or of a PLANET?
- YES.
- Are there other authorities, corroborating that fact?
- All ESOTERIC AUTHORITIES, including BLAVATSKY. Let me quote Dr. G. de PURUCKER.  
\* ... THE COMET IS A PLANETARY COMET WHICH WANDERS THROUGH SPACE, COMES BACK TO OUR SOLAR SYSTEM, IS ATTRACTED HERE, BECOMES A SMALL SUN, AND DYING OUT OF THIS STATE BECAUSE OF MATERIALIZING, BECOMES A FULL PLANETARY CHAIN, SETTLES IN LIFE AS WHAT WE CALL THE PLANET AND BEGINS ITS NEW

DAY OF BRAHMĀ.

-79-

THE BIRTH OF THE SPIRITUAL MONAD (ĀTMA-BUDDHI) AND HER FIVE ADDITIONAL PRINCIPLES, RESULTING LATER IN MAN.

THE SEVEN PRINCIPLES in EVERYTHING, be it STONE, MOUSE or MAN are [more or less awakened] SPIRIT, SPIRIT-SOUL, MIND, ANIMAL SOUL, ETHER BODY - ASTRAL BODY - PHYSICAL BODY. We are now at a stage, where LIFE is still FORMLESS but nevertheless SENTIENT. FIRST is ALWAYS THE DIVINE, and THEN [as cosmic principle] the SPIRITUAL, which is ĀTMA-BUDDHI or SPIRIT-SOUL.

Behold, oh Lanoo, the descent of the DIVINE BEAM through SEVEN COSMIC PLANES and their DENIZENS, called THE HIERARCHY OF CREATIVE POWERS or also THE CELESTIAL BEINGS. THE DIVINE BEAM touches plane I [from above], thus receiving his ĀTMA, or HIGHEST SPIRIT, from the HIGHEST CELESTIAL BEINGS, the LIONS OF FIRE. Although they, THE LIONS OF FIRE, are ARŪPA or FORMLESS, we see them in the picture on the next page as ETHEREAL FORM, to denote their consciousness, which is: FIRE. Why are they FORMLESS? Because NO CELESTIAL or terrestrial substance had yet

\*\*\* Because, oh Lanoo, SPIRIT derives from the DIVINE.

\*\*\* or: BEAMS, namely: almost endless many.

\* which makes it SEVEN and thus: US.

\*\*\* more than 150,000,000,000 years ago.  
\*\*\* better: from INSIDE, because EVERYTHING EVOLVES FROM INSIDE TO OUTSIDE. WE only call it ABOVE and BELOW.

... BEEN DIFFERENTIATED. Later even THEY, THE LIONS OF FIRE SHALL RECEIVE "STRUCTURE". As we can see, their FIERY NATURE is connected with and recorded in, the zodiacal sign of LEO. We could also call these Lions of Fire the NUCLEOLE of the SUPERIOR DIVINE WHEEL.

\* also called "THE LIONS OF FIRE" because of their FIERY consciousness, which is even ONE STEP BEFORE FIRE, namely: AKASA. AUM.

Having received its ATMA from THE LIONS OF LIFE or FIRE, the DIVINE BEAM[S] descend one plane "lower" onto the SECOND COSMIC PLANE and its denizens, which are more "SUBSTANTIAL" than the first group. We can also call them THE FIRST DIFFERENTIATION. They, the SECOND CELESTIAL BEINGS are the PROTOTYPES of incarnating MONADS or JIVAS\* and they furnish the DIVINE BEAM with a DIVINE SOUL or BUDDHI.

**IMPORTANT.** The celestial Beings are NOT creators. When the Divine Beam descends it is AUTOMATICALLY tainted by their essence. Now we understand Blavatsky "With the Aryans and the earliest Akkadians all things are emanations through, not by, a creator or logos. With the Semites everything is forgotten."\*\*

\* See under SANSKRIT and JIVAS.  
 \* or DUADS [having DUALITY as their main characteristic]  
 \*\* Blavatsky, S.D. Anthropogenesis, p. 54

THE DIVINE BEAM, now furnished with ATMA, BUDDHI, or SPIRIT and SPIRIT-SOUL, a structure which, by the way, it shall never again loose until THE GREAT PALACE, this DIVINE BEAM descends FURTHER, touching the THIRD COSMIC PLANE and its CELESTIAL BEINGS, called THE TRIADS. They are called THE TRIADS, because THEY are able to assimilate ATMA-BUDDHI-MANAS, by furnishing THE DIVINE BEAM with MANAS.

\* MIND YOU: THE DIVINE BEAM can descend, but THE MONADS, for instance, can NOT descend. They just "drop" an emanation [or soul] of themselves onto whichever plane they have to leave. AUM

In descending lower the DIVINE BEAM [now ATMA-BUDDHI-MANAS or SPIRIT-SPIRITSOUL-MIND] descends lower and touches THE FOURTH COSMIC PLANE [from above], which is THE HIGHEST PLANE of ATOMIC FORMS. When I say ATOMS, I [still] mean not yet Atoms, but their etherial counterparts and PROTOTYPES. And so are the denizens of, or on, this plane. They are SUBSTANTIAL ENTITIES, though we would not yet be able to SEE them [maybe in the FIFTH or SIXTH round]. It is from this plane and its CELESTIAL BEINGS, that a GERM shall fall into GENERATION, into every PHYSICAL CELL. And it is THIS GERM, which becomes THEN in the PHYSICAL CELL the SPIRITUAL POTENCY, guiding the development of STONE, PLANT, ANIMAL, MAN and eventually GOD again. Oh LAHOO, every ATOM is the MANIFESTATION OF AN ANGEL. Behold on the next page THE IMPERISHABLE JIVAS, furnishing the DIVINE BEAM with HUMAN CONSCIOUSNESS, later called, ANIMAL SOUL or KAMA-RUPA. NOW the DIVINE BEAM is ATMA-BUDDHI-MANAS-KAMA RUPA. Thus the PHYSICAL evolves GRADUALLY from the SPIRITUAL, MENTAL and PSYCHIC, or: FROM INSIDE OUTSIDE.

\* Why HUMAN consciousness? Isn't HUMAN CONSCIOUSNESS MANAS? NO. HUMAN consciousness DROPS into COSMIC KAMA, and THAT is, where most of our MANAS dwells. Meditate about THAT, Oh LAHOO.

THE DIVINE BEAM, being furnished with KĀMA by the FOURTH GROUP OF CELESTIAL BEINGS.

21

Having been thus furnished by the FOURTH GROUP OF CELESTIAL BEINGS, the DIVINE BEAM touches the FIFTH PLANE and GROUP OF CELESTIAL BEINGS. These CELESTIAL BEINGS contain in themselves the DUAL ATTRIBUTES OF THE SPIRITUAL and PHYSICAL aspects of THE UNIVERSE. And that is PRECISELY, what the DIVINE

BEAMS are. How else could they survive in the PHYSICAL UNIVERSE? They are the FIFTH GROUP and represent DUALITY. Multiply 5 x 2 and you receive 10, or THE TENTH SIGN OF THE ZODIAC, which is MAKARA, or, as we call it, CAPRICORN. Behold, the MAKARA DHYANIS, furnishing the DIVINE BEAM with the consciousness of DUALITY.\*

22

Now the DIVINE BEAM is <sup>1</sup>ĀTMA-BUDDHI-MANAS-KĀMA-PRĀNA, or: SPIRIT-SPIRITSOUL-MIND-ANIMALSOUL-ASTRAL-BODY, which allows THE DIVINE BEAM to descend onto the SIXTH \*which later becomes the DUAL NATURE in MAN.

BEAMS are. How else could they survive in the PHYSICAL UNIVERSE? They are the FIFTH GROUP and represent DUALITY. Multiply 5 x 2 and you receive 10, or THE TENTH SIGN OF THE ZODIAC, which is MAKARA, or, as we call it, CAPRICORN. Behold, the MAKARA DHYANIS, furnishing the DIVINE BEAM with the consciousness of DUALITY.\*

and SEVENTH PLANE with their SIXTH and SEVENTH GROUP OF CELESTIAL BEINGS, partaking of, or representing, THE LOWER QUALITIES IN MAN. Here we see CONSCIOUS, ETHEREAL ENTITIES [groups and side groups]. They vary from formless [ethereal] to ATOMIC, but still invisible, organisms. They are the SPIRITS of the ATOMS, or: THE FIRST STEP BACKWARDS FROM A PHYSICAL ATOM! They are, as BLAVATSKY has it: "Sentient if not INTELLIGENT CREATURES." And they all have KARMA to outlive. The next page shall reveal to us THE WONDER OF WONDERS, namely the COSMIC CONDITION FOR the LATER APPEARANCE of MAN, the UNIVERSAL MATRIX OF the PROCESS of how to build MAN, the HIGHEST SEVENFOLDED STRUCTURE IN THE UNIVERSE. It is a COSMIC TRAUMA, that LATER the POWERS or ANGELS were NOT ABLE to obey the call of KARMA and to "create" sevenfolded MAN, as it was shown to them THEN, THILLIONS OF YEARS AGO, by those GROUPS or CLASSES OF CELESTIAL BEINGS, from whom they THEMSELVES later descended, destined to REcreate MAN especially in the 1800's <sup>1</sup>embodiment of OUR EARTHMAN. And see how they failed...

\*This is a hint towards the fact, that, if you influence the SPIRIT of an ATOM, you influence the ATOM. But enough said...

\*all these beings of "Gods" exist and are as REAL as anything else, out of so as TEMPORARY as anything else (visible or invisible). St. Paul writes about them in 1 Cor. VII, 5: "For though there be that are called gods, whether in heaven or in earth, as there be gods many and lords many." [See bottom of next page: commentary of St. Cyril of Alexandria].

The fact of the matter is: Every Monad, be it in the mineral, plant, animal, human or Deva Kingdom, has to be furnished NEWLY at each reawakening of all Universal life [or each 311,040,000,000,000 years] with its correspondent [and more or less evolved] principles by THE HIERARCHY OF CREATIVE POWERS OR THE CELESTIAL BEINGS. WITHOUT these principles there could be no growth for either mineral, plant, animal, man or even God. And according to their SELF-CREATED KARMA, mineral-, plant-, animal-, human-, and even DEVA monads receive precisely the principles [which are Monads too] they deserve. In other words: The Celestial Beings clothe the Monadic Sutratma or THREAD SOUL into its principles at each new dawn of Cosmic Life, like a mother clothes her baby each morning anew.

The question must be allowed: Where do the CELESTIAL BEINGS come from? Answer: From nowhere, they were ALWAYS THERE. They are aja, anupa padaka, or: painless. Uncreated like EVERY Monad, that is what they are, and that is what we all are. Don't you see? If something or somebody created them, we could ask: And who created him?

\* Yes, minerals, plants and animals create Karma too.

or it? Etc, etc, etc. OM MANI PADME HUM says it all. "Oh jewel in the Lotus: We all are Jewels in the Lotus or Monads in BRAHMAN, uncreated and therefore in essence IMMORTAL. AUM."

THE BREAKING UP OF MONADIC STRUCTURES.

This breaking up happens with each creature at death, during sleep and between each small or great period of cosmic activity or Manvantara. For instance: A Dhyān Chohan from the Moon's SEVENTH ROUND broke up into its different MAIN principles which are MONADS. This Dhyān Chohan did not REDESCEND on the new Earth-chain, as we shall learn, in its wholeness but in a certain Monadic order, thus building or helping to build the NEW CHAIN, our Earth with its six [or 9 or 11...] invisible globes. AUM. The order of Monadic appearance of ALL entities from the chain PRIOR to our Earth-chain is described in detail in THE BOOK OF LIGHT. For instance: A Dhyān Chohan from the Moon breaks up in Lunar-Monadic parts, Mel-nosaputric-Monadic parts, etc., until the THREAD SOUL is freed from all principles. THEN [after sleep, death or, and Pralaya] these principles arrange themselves again around the Sutratma or thread soul like birds in the morning sky around their leader. AUM to wisdom and knowledge.

Secret Commentaries: "... All sentient complete beings [Men or HIGHER than Men] are furnished, in their [relative] beginning [or at each reawakening of all Universal Life], with forms and organisms in full harmony with the nature and state of the sphere they inhabit."

Behold, the SEVEN GROUPS OF CELESTIAL BEINGS "creating" a BEING, MAN from his HIGHEST SPIRIT to his LOWEST PHYSICAL BODY. But here is wisdom: IT IS THE FIVE MIDDLE HUMAN PRINCIPLES [in us] or BUDDHI, MANAS, KAMA, PRANA, LINGA, which ARE IN FACT THESE FIVE GROUPS OR DHYANIS.

\* St. Chrysostom comments St. Paul's Epistles: "And though there are [in fact] they who are called gods... - for it seems, there are really SEVERAL GODS-withal, and for all that, the God-principle... Thus spoke the old INITIATES ALSO KNOWING THAT THE WORSHIP OF MINOR GODS COULD ->

Those who have ears to hear and eyes to see, must FEEL THE POWER OF WISDOM AND KNOWLEDGE revealed to you in THE BOOK OF LIGHT. Why? Because I just revealed to you the SECRET OF THE FIVE-POINTED STAR. YOU ARE FIVE, OH LADY, BECAUSE ATMAN, OR THE DIVINE WAY, PROCEEDS FROM THE ONE, and your PHYSICAL BODY is more or less a result or EFFECT of its CAUSE, namely of THE ASTRAL BODY, which is the reason why the ASTRAL BODY is called LINGA-SAKSHA which is SANSKRIT and means MODEL-BODY, or WASTE AWAY MODEL, or MODEL THAT IS IMPERMANENT [though it lasts MUCH LONGER, than the PHYSICAL and the ETHEREAL BODY]. FIVE: or 1. SPIRIT SOUL 2. MIND 3. ANIMAL SOUL 4. ETHER BODY 5. ASTRAL, THAT IS WHAT WE ARE and YES, when you wear the FIVE POINTED STAR, which is the SYMBOL OF WHAT YOU ARE, THEN YOU CAN PROTECT YOURSELF. And what is THE SIX POINTED STAR with the CENTER POINT in it? THE SIX POINTED STAR, or DOUBLE TRIANGLE, with the CENTER POINT, IS SEVEN FOLDED MAN and the CENTER POINT denotes ATMA - THE HIGHEST. Yet I say: You need not to wear ANY OF THESE SYMBOLS in order to PROTECT yourself against EVIL. All you need is: BE PURE, SIMPLE and INNOCENT and STUDY THE BOOK OF LIGHT and IMMORTALITY IS YOURS. Oh Lady, one day we [the principles in us] shall return to the HIERARCHY OF CREATIVE POWERS. The son returns to the Father. AUM.

→ NEVER AFFECT THE "GOD-PRINCIPLE". [This definition is approved by Rome.]

Those who have ears to hear and eyes to see, must feel the power of wisdom and knowledge revealed to you in THE BOOK OF LIGHT. Why? Because I just revealed to you the SECRET OF THE FIVE POINTED STAR. YOU ARE FIVE, OH LANOO, BECAUSE ATMAN, OR THE DIVINE WAY, PRECEDES FROM THE ONE, and your PHYSICAL BODY is more or less a result or EFFECT of its CAUSE, namely of THE ASTRAL BODY, which is the reason why the ASTRAL BODY is called LINGA-SAKRA which is SANSKRIT and means MODEL-BODY, or WASTE AWAY MODEL, or MODEL THAT IS IMPERMANENT [though it lasts MUCH LONGER than the PHYSICAL and the ETHEREAL BODY]. FIVE: or 1. SPIRIT SOUL 2. MIND 3. ANIMAL SOUL 4. ETHER BODY 5. ASTRAL, THAT IS WHAT WE ARE and YES, when you wear the FIVE POINTED STAR, which is the SYMBOL OF WHAT YOU ARE, THEN YOU CAN PROTECT YOURSELF. And what is THE SIX POINTED STAR with THE CENTER POINT in it? THE SIX POINTED STAR, or DOUBLE TRIANGLE, with the CENTER POINT, IS SEVEN FOLDED MAN and the CENTER POINT denotes ATMA - THE HIGHEST. Now you know it, Oh LANOO. WE are not only CREATED by these CELESTIAL BEINGS, WE ARE them, BECAUSE connected with them throughout ONE MAHĀ MAHĀ MANVANTARA or 311.040.000,000,000 YEARS. And one day we shall return to them, and they [with us] shall be reunited in BRAHMAN. AUM. And who created THE CELESTIAL BEINGS? Nobody. They were always there, self-contained in UNIVERSAL MIND, reawakened and re-manifesting at each new dawn of a period of GREAT COSMIC ACTIVITY.

THE UNVEILED SECRET [one key] OF THE FIVE POINTED STAR AND ITS RELATION TO THE FIVE CHYANI CHOWANS, also called THE STYXOLIO CHYANI CHOWANS, which are... WE, AUM. go next page.

\*...All sentient complex beings [including MAN] are furnished, in their beginnings, with forms and organisms in full harmony with the nature and state of the sphere they inhabit. [Secret code].  
\*\*our LOWER PRINCIPLES.

\*From now on MAN has again the POTENTIALITY of all the SEVEN PRINCIPLES as... 90... a GERM in himself. Master KH.

\*They [THE FIVE] are called THE SIXFOLD, because their "BODIES" contain, or are built of, SIX SPIRITUAL ELEMENTS. They are MEN MINUS THE PHYSICAL BODY. Behold, Oh LANOO, the SIX POINTED STAR with THE SEVENTH, THE CENTER POINT and ITS TRUE SIGNIFICANCE and MANIFESTATION through THE SEVEN CELESTIAL BEINGS and... US.

But we can also say and there is NO CONTRADICTION: "Saturn, Jupiter, Mercury and Venus furnished our HUMANITY with outwards AND inwards characteristics, and the REGENTS or PLANETARIES or SPIRITS of these planets gave us our MONADS AND SPIRITUAL FACULTIES." AUM.

\*AND THEY TOO have to reincarnate again and again. In whom? In US!  
\*\*and three others revealed in THE BOOK OF LIGHT. All these heavenly bodies were in direct astral and psychic communication with EARTH and ITS spiritual rulers. [morally and physically].

Having received its ATMA from THE LIONS OF LIFE or FIVE, the DIVINE BEAMS descend one plane "lower" onto the SECOND COSMIC PLANE and its denizens, which are more "SUBSTANTIAL" than the first group. We can also call them THE FIRST DIFFERENTIATION. They, the SECOND CELESTIAL BEINGS, are the PROTOTYPES of incarnating MONADS or JIVAS, and they furnish the DIVINE BEAM with a DIVINE SOUL or BUDDHI.

IMPORTANT. The celestial Beings are NOT creators. When the Divine Beam descends it is AUTOMATICALLY tainted by their essence. Now we understand Blavatsky "With the Aryans and the earliest Akkadians all things are emanations THROUGH, not BY, a creator or logos. With the Semites everything is FORGOTTEN."  
\*\* See under SANSKRIT and JIVAS.  
\* or DUADS [having DUALITY as their main characteristic]

THE DIVINE BEAM, now furnished with ĀTMA-BUDDHI, or SPIRIT and SPIRIT-SOUL, a structure which, by the way, it shall never again loose until THE GREAT PRALAYA, this DIVINE BEAM descends FURTHER, touching the THIRD COSMIC PLANE and its CELESTIAL BEINGS, called THE TRIADS. They are called THE TRIADS, because THEY are able to assimilate ĀTMA-BUDDHI-MĀNAS, by furnishing THE DIVINE BEAM with MANAS.

20

\*MIND YOU: THE DIVINE BEAM can descend, but THE MONADS, for instance, can NOT descend. They just "drop" an emanation [or soul] of themselves onto whichever plane they have to learn. AUM

In descending lower the DIVINE BEAM [now ĀTMA-BUDDHI-MĀNAS or SPIRIT-SPIRITSOUL-MIND] descends lower and touches THE FOURTH COSMIC PLANE [from above], which is THE HIGHEST PLANE of ATOMIC FORMS. When I say ATOMS, I [still] mean not yet ATOMS, but their etherial counterparts and PROTOTYPES, and so are the denizens of, or on, this plane. They are SUBSTANTIAL ENTITIES, though we would not yet be able to SEE them [maybe in the FIFTH or SIXTH round]. It is from this plane and its CELESTIAL BEINGS, that a GERM shall fall into GENERATION, into EVERY PHYSICAL CELL. And it is THIS GERM, which becomes THEN in the PHYSICAL CELL the SPIRITUAL POTENCY, guiding the development of STONE, PLANT, ANIMAL, MAN and eventually GOD again. Oh LAHOO, every ATOM is the MANIFESTATION of AN ANGEL. Behold on the next page THE IMPERISHABLE JIVAS, furnishing the DIVINE BEAM with HUMAN CONSCIOUSNESS, later called, ANIMAL SOUL or KĀMA-RŪPA. NOW the DIVINE BEAM is ĀTMA-BUDDHI-MĀNAS-KĀMA RŪPA. Thus the PHYSICAL evolves GRADUALLY from the SPIRITUAL, MENTAL and PSYCHIC, or: FROM INSIDE OUTSIDE.

\* Why HUMAN consciousness? Isn't HUMAN CONSCIOUSNESS MANAS? NO. HUMAN consciousness DROPS into COSMIC KĀMA, and THAT is, where most of our MANAS dwells. Meditate about THAT, Oh LAHOO.

THE DIVINE BEAM, being furnished with KĀMA by the FOURTH GROUP OF CELESTIAL BEINGS.

21

Having been thus furnished by the FOURTH GROUP OF CELESTIAL BEINGS, the DIVINE BEAM touches THE FIFTH PLANE and GROUP OF CELESTIAL BEINGS. These CELESTIAL BEINGS contain in themselves THE DUAL ATTRIBUTES OF THE SPIRITUAL and PHYSICAL aspects of THE UNIVERSE. And that is PRECISELY, what the DIVINE

BEAMS are. How else could they survive in the PHYSICAL UNIVERSE? They are the FIFTH GROUP and represent DUALITY. Multiply  $5 \times 2$  and you receive 10, or THE TENTH SIGN OF THE ZODIAC, which is MAKARA, or, as we call it, CAPRICORN. Behold, the MAKARA DHYĀNTS, furnishing the DIVINE BEAM with the consciousness of DUALITY.\*

22

Now the DIVINE BEAM is ĀTMA-BUDDHI-MĀNAS-KĀMA-PRĀNA, or: SPIRIT-SPIRITSOUL-MIND-ANIMAL SOUL-ASTRAL-BODY, which allows THE DIVINE BEAM to descend onto the SIXTH

\* which later becomes the DUAL NATURE in MAN.
