

-3803-

matter on the to us visible plane.

-What is "absolute matter" mentioned in B.O.L.?

It is the ultimate depth, being reached by a spiritual impulse.

-But B.O.L. teaches that there are no absolutes.

That is true. So when I say "absolutes" I actually mean relative "absolutes", and that NOT as in popular sense as "limitless, or endlessly completed. Of that kind there are NO absolutes, because such "absolutes" would not permit growth, or further growth.

-NIRVANA is no absolute?

No, because NIRVANA means "extinction" of any impermanent appearance.

-How many dimensions can matter have?

Only and always 3.

-But what about 4th and 5th dimensions of space?

Only MATTER can have dimensions. Space per se not, because it contains all BUT it is not contained.

-So each world comprises all dimensions?

-3804-

There is NO one, two, or three dimensions but ONLY and always 3. Anything else are mental representations. THEN you can say 7 dimensions, etc.

-Why does science (and many occultists) think that space per se has dimensions? Because they don't know what space is. They think space is a kind of container, a finite thing, which it is not.

-So matter is converted force?

Yes. And force is simply matter on a higher plane.

-Ethereal matter?

Yes. And physical matter is force on our plane.

-What does science say about this?

They define matter and force on the basis of fortuitous mechanism, that causes out of "lifeless matter". BUT there is no lifeless matter. Everything lives, dies and is reborn. OM.

-Then what is nature?

a equilibrated spirit.

-Can science change its mind?

They do in many directions, and yet they still see everything from a materialistic point of view, ignoring the other, spiritual side. Again!

-3805-

Force and matter are one!

-What is the substratum of all matter?

Wrong question. If you ask "Is there another meaning to matter?" I can respond.

-Do so, please.

If by "matter" you mean THE SUBSTRATUM, the essential substance of being, then that is MÜLA - prakriti or root-substance, the garment of Parabrahman (beyond the supermund).

-That is eternal?

That yes. It is timeless eternal, beginning- and endless, because THREE are timeless eternal, uncreated, parentless. Those 3 are: 1. NIRVANA 2. all Monads and 3. Mülaprakriti.

Or. 1. Space 2. all Monads 3. Root-matter.

-What can Parabrahman - Mülaprakriti be for any human intellect?

The absolute state of the hierarchy, its root from which everything evolves. OM.

-What is the pillar of materialistic science they insist on concerning matter?

It is the theory of "conservation of energy". Including the other dogma "conservation of forces". They just fail to explain why the "forces" combine throughout world is:

-3806-

Guided by wishadic or rather spiritual desire.

-How is human Karma born?

Within ourselves. We are creators and generators of Karma, we suffer from it or not through previous actions, each act is a seed.

-I want to become impersonal!

Then detach by study and meditation from your mask.

I don't understand.

-PERSONA means mask, Rip it off!

Now I understand. But I still don't understand Jesus, when he asks or demands or suggests: "He who saves his life shall lose it but he who gives up life for my sake, shall find it."?

Yes, Jesus says it in Matthew, Mark and Luke. This ancient teaching.

Please explain it!

You will understand when you continue to ask differently.

-What is the difference between Self and Ego?

The Self is a wishadic acton. It says in all things "I am".

And the EGO?

Says "I am I".

What is that?

Indirect or reflected consciousness is the EGO. Recognising itself as māyānic entity.

- Feeling ³⁸⁰⁷ rejected! The cause of all suffering?
 Yes. If you think "I am this or that",
 you identify yourself with a transient
 illusion.
 - How can I overcome those false views?
 Through meditation and B.O.L.
 - Can one be led into false direction by that
 teaching?
 Yes, if he or she does not understand it
 correctly. Then he will go down, by
 trying to concentrate on the mask.
 - The personality!?
 Yes. False understanding of that teaching
 is or leads to intensity of egoism.
 - What do we need to understand it correctly?
 - Impersonality. You must lose the attachment
 to your personality in order to
 become the Monad again.
 - Now I understand the words of Jesus:
 "He who gives up his life, shall find it."
 O.M. Now you understand the words
 of Jesus, thrice said in bible.
 - How does the Monad attain that
 false understanding of being the mask,
 the personality?

- I still don't understand the process of
 evolution. -3808-
 Universe awakened about more than
 150 billion years ago. Everything left
 NIRVANA down to "shadowy arc"
 into matter, which always as material essence
 Mūlaprakriti is timeless eternal. The
 Monads surround themselves with vehicles
 becoming denser and denser, compact, heavy
 until, it passes the deepest point.
 - When was this on our earth chain?
 About 3 million years ago. That was
 the turning point. From there on the
 Monads (ours too) rise again along the
 upward cycle, the luminous path or arc.
 - Where to?
 Towards divinity, from which we emanated
 as divine sparks or rays. Then
 at the reawakening, we were God-sparks
 but did not know it.
 - Please explain in detail.
 The hierarchy of humans grows from its seed.
 - What seed?
 The Self. It happens in 10 stages, from
 the arūpa plane down to the plane of
 matter and manifestation. O.M.
 - From immaterial to material?
 Yes. And on each plane the self or monad

surrounds it self with a sheath or par-
 mant. -3809-
 - Made of what?
 Of pre-existing Mūlaprakriti - rootmatter.
 - Who created that rootmatter?
 None. Rootmatter, all beings and
 space are uncreated timeless eternal.
 - So what religion claims of their gods
 to be uncreated, being always there,
 timeless-eternal, that teaches B.O.L.
 from or rather of everything?
 So it is. Everything existed of ways
 and changes form periodically.
 - What is in the evolution process the first in
 order?
 The Self, the monad behind all.
 Then grows from within the self, the
 EGO contacts matter, according to
 karmic line from past lives but also
 manvantaras.
 - Stored in the Soudhas or permanent
 atoms?
 Yes. So the ego intermingles with
 other host of intelligences, throws out
 from itself its garment or sheath or
 vehicle.
 - Made of what?
 Of light - or of shadow, according to

-3811-
 - I did not yet understand the re-incarnation
 process?
 Ask me.
 - Does everything have a soul?
 A soul, corresponding to its type, yes.
 - So there is no abiding principle in matter?
 None whatsoever. Monad changes with its
 experiences. O.M. Ask me as to the Monad and
 its envelope and you will understand.
 - What is the highest center in man?
 The monad. Its envelope is what we call
 "soul".
 - What is it?
 The highest vehicle of Ātman.
 - What is it as egoic center?
 An Ego.
 - Is it deathless?
 Until the end of Mahā-Manvantara it
 is deathless as an individualized ego.
 - Until or for 50 Billion more years?
 No. "Only" until the end of this solar man-
 vantara, this or our solar system.
 - What happens then?
 At the planets including their air are blown
 out.
 - What do all manifested beings go to?
 To a higher plane.

-3811-

- I did not yet understand the reincarnation process?
Ask me.
- Does everything have a soul?
A soul, corresponding to its type, yes.
- So there is no abiding principle in us?
None whatsoever. Monad changes with its experiences. OM. Ask me as to the Monad and its envelope and you will understand.
- What is the highest center in man?
The monad. Its envelope is what we call "soul".
- What is it?
The highest vehicle of Atman.
- What is it as egoic center?
An Ego.
- Is it deathless?
Until the end of Mahā-Manvantara it is deathless as an individualized ego.
- Until or for 50 Billion more years?
No. Only until the end of this solar manvantara, this or our solar system.
- What happens then?
All the planets including their auras blaze out.
- What do all manifested beings go to?
To a higher plane.

- What, then, holds physical matter of this solar system together?
Nothing. It goes to pieces, it vanishes away.
- But reincarnation...
Ask me more.
- What causes the rearranging of the NEW body at reincarnation?
Life atoms, that formed the past body and I left it at death. By "past body" I mean ALL SEVEN BODY S.C. physical, aural, etheric, mental, soul and even spirit. To them man clips and they, their life atoms, shall reorganize themselves in vitro.
- So what are those life-atoms?
Man's offspring, literally, because they spring off at death and cause the decay of man's body on ALL planes, but THEY REMAIN.
- When will these atoms return after death of the 7 bodies of man?
When karma strikes, when the magnetic gravitational pull causes restructure of the life-atoms in a new womb and new fetus, etc.
- What do these life-atoms form?

-3813-

- Life after life man's astral, psychic, mental and spiritual nature.
- Then I am my own offspring?
Yes. Parents only deliver the body according to YOUR karma.
- So no one else is responsible but...?
YOU!
- OM!
OM! ask further.
- Now I understand the strange teaching of "resurrection of the dead".
Yes, not the dead body is meant by that, but the rearranging of the life-atoms after death as new body.
- So the LIFE-ATOMS are bone of my bones, so to speak?
Yes. They are yourself, your own dissipated life-atoms.
- And they return to me?
Life after life. So fill these life-atoms with good energy. Love all beings unconditionally.
- What are those life-atoms compared to our higher nature?
Like we are children of the Highest, of the Cosmos, those life-atoms are parent-souls.

-3814-

- So the old body does not resurrect?
No. The old body is gone forever.
- But THE LIFE-ATOMS that build the former body are there. They survive - even an atomic explosion, since they are not from the physical plane.
- Even if the entire planet with every thing on and in it would explode the life-atoms would remain?
Yes, that counts for man and planet. These life-atoms would rearrange, sooner or later.
- When the life atoms return after death of the body, do they form exactly the same body? In the new womb?
No. There would be no parents then. But the new body, built by THE SAME Life-atoms will be acc. to karma.
- Please give an example.
Let us assume a normally built person will become EVIL, VICIOUS, CRUEL, MURDEROUS, abusing also sexual energy, etc. that the life-atoms are filled and proreproduced with that kind of energy and it will lead in next life to maybe an ugly, bitter, (handicapped) or physi-

ally distorted. Often the most intelligent people develop in that way. -3815-

- Why?
Because they abused mental power, their intelligence, and the life-atoms stored that energy and matter of the body(s) adjust in next life accordingly around the vibration of the life-atoms.

- So life after life I am my own creator?
Yes, but supplied with body's material & yours and by the Elohim, according to your the unevoked state. DM.
- To my state of desire?
DM.

- So the life-atoms of the old body build the structure of the new body?

Yes. Do you see and understand now your moral, physical, mental and spiritual responsibility, that you have for your life and the life of others?

Yes. We suffer and have joy from our own acts.

- How else could we call those life-atoms?
Embryonic souls. They build the new bodies we live in, after death of the old bodies.

- B.O.L. teaches, that one day we will be LOGOI. What then with our life-atoms? -3816-

Some will consist of the logic-structure, others will be archangels, angels, prajapati, manūs, human souls, and also lesser entities, as we now know them to be lower in hierarchy.

- So then OUR Logos was almost as a human like we?

Yes. We are now the or a lower hierarchy of the logos, like future humans will be to us once WE are Logoi. DM.

- Now I understand why such teaching was kept secret for so long!?

Yes, one could easily abuse such teaching, by misrepresenting it, for instance programming the life-atoms by sorcery, trying to keep them in the physical body (embalming, etc.) but also by entering their structure and cause havoc for the entire race and planet, by negative mantra, as it happened during at least three times.

- Explain please more detailed.?
Enough said of it.

- Could you please explain the reincarnative process from death to new birth or rebirth in summary? -3817-

1.) The physical body dies, its life-atoms scatter, the Monad withdraws on the etheric plane.

2.) The etheric body vanishes, its life-atoms scatter, the Monad withdraws on the KĀMA-astral (animal soul) plane.

3.) The kĀma-astral-animal soul dissolves, its life-atoms scatter, the Monad withdraws on the Astral plane.

4.) The astral body dissolves, its life-atoms scatter, the Monad withdraws into the Mental plane.

5.) The mental body dissolves, its life-atoms scatter, the Monad withdraws on the soul-plane.

6.) The soul body dissolves, its life-atoms scatter, the Monad withdraws into the spiritual plane.

7.) The spiritual body dissolves, the life atoms scatter, the Monad is...?

- FREE!

If it would be the Monad of a liberated being then yes, but if not, the following happens -3818-

7.) Desire arises in the spiritual life-atoms and pull the Monad down to the 7th or

7.) Spiritual plane, surrounding the Monad with a new spiritual body.

DESIRES arises in the SOUL life-atoms drawing the Monad lower to the soul plane. Now the Monad has a spiritual and a soul body.

DESIRES arises in the mental life-atoms drawing or pulling the Monad lower to the

5.) Mental plane. Now the Monad has a spiritual-soul-mental body.

DESIRES arises in the astral life-atoms from past life and past body, so the Monad is pulled deeper (but also more outside...) to the

4.) Astral plane. Now the Monad has a new spirit-soul-mental-astral body.

-3818-

DESIRE or TRISHNA for new life arises in the kāma - or animal soul life atoms. The Monad is drawn more outward to the KAMA-astral plane.

3. Now the Monad has a spirit-soul-mental-astral-anima (astral) soul body. DESIRE arises in the ethereal life atoms, drawing the Monad deeper or rather more outside to the ethereal plane.

2.) Now the Monad has a spirit-soul-mental-astral-animal soul-ethereal body.

DESIRE arises in the physical life atoms, pulling the Monad in to physical life, surrounding it with the seventh body (counted from above with

1.) The physical body, beginning in utero, assisted birthwise by angelic forces (as far as karma permits them) until the new physical body is born. OM.

-3820-

-So we are what we make of ourselves? So it is.

-Where do our downward thoughts lead? To hell and a hellish reincarnation, but UPWARDS thoughts lead to companionship with divinities. Therefore think at least after waking up and before going to bed: MAY ALL BEINGS BE HAPPY! MAY ONLY GOOD THINGS HAPPEN TO THEM!

-Then only good things will happen to me?

YES, of course after your negative past karma has been outlived. THAT you can NOT escape, but you may be able to "catch" it. OM.

Do not fasten your thoughts too much on things of lower nature. It will lead to depression.

-How can one overcome depression?

-Lead your thoughts up to HIGHER things! Study P.D.L., meditate and say and think each day!

MAY ONLY GOOD THINGS HAPPEN TO EVERY ONE!

-3821-

MAY ALL BEINGS BE HAPPY!

You can think variations of such words, but they should always be directed AWAY from you to others.

-Why not to myself?

Because you limit yourself with it! When you wish well to the entire universe, the entire universe will reflect with positive energy on you. When you only wish well to yourself, there is nothing outside to reflect.

Egotism (personally defined) leads to destruction of the self.

-Now I understand "yad yad rūpam kāmayate devatā, tat tad devatā bhavati."?

Yes "whatever form or body a divine being longs for, that very thing the divine being becomes."

-Are there evil people, whose souls are strong?

Of course. There are spiritually evil people. All religious fanatics (if of the lowest kind, like ISIS fanatics, etc.) are spiritually evil.

-3822-

-That sounds paradox? And yet it is true.

-Are they named in religious scriptures? For instance in the New Testament, as "heaps of spiritual wickedness and iniquity."

-But how can one who has ruptured his link to the divine still be "spiritual"? It is a dark secret. Are you ready for it?

-yes.

Are you ready for it?

-yes.

Are you ready for it?

-yes.

Then so be it. Conscious evil beings, sorcerers, mediums as well as many leading humans in religion, science, economy and politics have given to their souls an impress, an impulse, which keeps their souls often far long while alive and active.

-How long?

Until its initial strength, the impulse, has worked itself out. Throughout many lives such evil and mostly highly intelligent beings have accumulated evil energy, being very alive.

...♥ EK ♥...

god mean wild emotions, and hot
passions? -3823-

No, no. That is all still very human
and compared to those evil being re-
latively harmless. These spiritually evil
act cold hearted and under Manu-
chohan's aid and protection. At least
for awhile. THEIR evil energies
10 million times more potent than
"normal" human passion.

- But why are they SPIRITUALLY evil.
Because they are degraded spiritual
energies.

- How did they attain them?

.....

- How did they attain them?

.....

- How did they attain those spiritual-
ly evil energies?

By living as pure as the pure ones.

- I don't understand.

Most of these evil beings have no
sex, eat only once a day a vegetarian
meal and only drink water. That
spiritually accumulated energy they
use for selfish and (power etc.)
* worldly.

...♥ EK ♥...

...♥ EK ♥...

- What about their karma? -3824-

They build a protective wall around them.
So karma, their evil karma, accumulates
around them, but can't touch them.
For ALONG TIME they are able to
do their evil satanic work undisturbed
and unpunished.

- Until? ..

Until, maybe after many lives, the
accumulated karma surpasses the
protecting walls around the evil ones
and crushes down on them. Aons
of suffering are the result for these
evil beings, and many of them are
annihilated on "The Planet of
Death" in avichi nirvana.

- I want to go to NIRVANA.
Then drop even that desire. Forget the
word NIRVANA.

- Why? How?

All you have to do, to avoid reincarnation
on earth, or in hell and heaven, is to
overcome your desire for earth, hea-
ven and hell.

- How?

Meditate each day, have no sex,
eat once a day, go to a monastery
if you can afford it, make your

...♥ EK ♥...

...♥ EK ♥...

home a monastery. -3825-

- Who was the Buddha? Is he in
NIRVANA?
Yes and no.

- ?

Yes because his mind is in the
refuge, no because one of his vehicles
lives right now on earth as Nirmanakaya.

- What is that?

The lowest of the three mystical vehicles
of the Buddha.

- So the highest, spiritual element of
the Buddha is in NIRVANA?

Yes.

- Please tell me more about the Buddha.
His personal name was Siddhartha.
Gautama was his pers family name.
He came from the Sakya clan. He
was or became a "Muni", a sage. Thus
the name Sakya Muni, given to him.

- When did his higher spiritual portion,
the mind, enter nirvana?

When his physical body was 80 years
old.

- Then he died?

...♥ EK ♥...

...♥ EK ♥...

No. B.O.L. teaches: Gautama Buddha's
body died with 100 years. But Buddha
remained on earth until today as
Nirmanakaya.

- I don't understand?

A Nirmanakaya is a body beyond
the physical plane, a complete man,
mind's physical body.

- An ethereal being?

Yes. The spiritual - personal ego of
Gautama Buddha remained on earth,
although ethereally.

- Is it an active entity?

You bet, overshadowed by
nirvanic element.

- What else is such a Nirmanakaya?

A Bodhisattva, the epic element of
Buddha Gotama, and at the same
time a spiritual ray of or from
globe Dhyani-Bodhisattva.

- I understand a bit more, but not
all?

It takes years of deep thought to
fully understand.

- B.O.L. teaches, that Jesus taught
Buddhism. How is that possible?

* spiritual - human ** daily study of B.O.L.

...♥ EK ♥...

Jesus was incarnation of a Nirvāṇā-kāya, ⁻³⁸²⁷⁻ having connection with Bodhisattva of Śaṅkha Buddha, or rather with his Bodhisattva - Nirvāṇakāya.

- Was Jesus an Avatāra?

Yes. So you could say, that the Nirvāṇa-kāya of Buddha guided and inspired Jesus. OM.

- Please explain more detailed. How did Buddha inspire Jesus?

Buddha left after death his Bodhisattva, while his highest mind was in NĪRVĀNA. Buddha's Bodhisattva provided then, centuries later, the ego-power in Jesus. This is how the hierarchy of compassion works.

- Since we touched Jesus, please explain who he really was?

The Jesus of bible never existed, which is, why there are no historical eyewitness records, no matter how hard they try to find some.

The true Jesus was born about 100 before the date given in bible.

He was an Initiate. He passed, a ye survived initiation. OM.

- you said Jesus was an avatāra. -3828-

What is that?

A descent of a divine being, of manifested Deity. It is an illusive form.

- Does it have Karma?

No, and neither does it have past or future.

- Why?

Because no previous incarnations.

- Will it have subsequent births?

No rebirths. Jesus was an overshadowing incarnation in a high human being.

- When do Avatāras come? Or rather what do they require to manifest on earth?

An Avatāra requires the Bodhisattva of a racial Buddha as a vehicle.

- Why?

So he can manifest on earth when due to appear.

- So an Avatāra is an illusion, a maya?

Yes.

Why?

Because lacking per se of intermediate epic quality.

- By whom is he furnished for the Avatāra?

By a Bodhisattvic vehicle, which is why Avatāra stands higher than Bodhi-

sattva, but merely of formulaic ⁻³⁸²⁹⁻ hierarchy, not from an evolutionary viewpoint.

- What then is the difference between a Buddha and an Avatāra?

Buddha became Buddha by SELF-DIRECTED EVOLUTION. An Avatāra is called forth by RACIAL necessity.

- A Buddha not?

A Buddha too, but in his case by PERSONAL CHOICE.

- Why?

Driven by compassion for his inferior fellow beings, still caught up in the net of material existence.

- What kind of Initiation had Jesus to suffer?

See B.O.L.

- Did he really wear a crown of thorns?

No way. That was a later distortion, but had also other occult meanings, pointing towards the mysteries.

- Did Jesus pass on to his disciples what he learned and suffered at Initiation?

Not completely. He had no other choice, which led to degenerated Christianity

as of today. Thank and glory to the ⁻³⁸³⁰⁻ Great Chohan for THE BOOK OF LIGHT.

- Is Christianity derived from Judaism?

Very little of it. Christianity actually derived from misunderstood Greek thought (Neo-Pythagorean and Neo-Platonic).

- So the theology of Rome derived mainly from Neo-Platonic philosophy?

Yes, and by that I mean, that the works of Rome church are basically by Thomas Aquinas. Altogether almost totally misunderstood occult teaching about origin and destiny of man and universe as now fully revealed in THE BOOK OF LIGHT.

- ~~With~~ To what did false teaching lead in religion today?

It stands reduced to forms and ceremonies.

- What are Buddhism, Brahmanism, Zoroastrianism, Christianity, Judaism, etc. of today?

Degenerated truth now restored in B.O.L.

- So crucifixion of Jesus is a mystery story?

Yes.

.....♥ EK ♥.....
-Sometimes I have problems with my brain-mind. Why is that so? -3231-

Because you are a composite being, 7-fold and each of these parts are not yet aligned to the monad. It will happen soon.

-What happens if brain/mind takes over? Then it becomes an hindrance, and one becomes the slave of mind, constantly directed towards the lower person instead to the higher self. Let the mind be your servant. OM.

-But MASTERS have great brain-mind?

They are Masters because of spiritual grandeur, not necessarily by brain-mind alone.

-What about the teachings H10 by Blavatsky?

All revealed in THE BOOK OF LIGHT.

-Please reveal by B.O.L. key our 7 races or root races?

.....
From midpoint of 1st race evolves the 2nd race. From midpoint of 2nd race the 3rd race. From midpoint 3rd race the fourth race. From midpoint the 4th the 5th race (in which we are now).

.....♥ EK ♥.....
-Sometimes I have problems with my brain-mind. Why is that so? -3231-

Because you are a composite being, 7-fold and each of these parts are not yet aligned to the monad. It will happen soon.

-What happens if brain/mind takes over? Then it becomes an hindrance, and one becomes the slave of mind, constantly directed towards the lower person instead to the higher self. Let the mind be your servant. OM.

.....♥ EK ♥.....
-Who are the Elohim? -3833-

The fashioners or creators of our different bodies.

-Did Elohim also create the Monad? No, all Monads are pre-existent. Ask me further about Monad, then we continue with Elohim.

-What is a Monad? The inmost of the inmost. That part which overshadows us.

-It is not in us? It is physically above us. You can partake of its bliss when your corresponding brain-centres are activated by pure life, study and meditation.

-Is that why drugged or drunken people sometimes seem so happy?

They ARE happy, that is because they feel the bliss of the monad above them.

But those brain-centres CLOSE again after being drugged or alcoholized and also after orgasm. Then and also because they become wild and wild damped, depression kicks in sooner or later. Pure life, study and meditation can open those bliss centres again.

.....♥ EK ♥.....
-Where does the term derive from? -3834-

B.O.L. teaches: from Giordano Bruno, inspired by Greek philosophy. Later Leibniz, a SLOVAK-German philosopher, used it. But Leibniz was inspired concerning monadic teaching by Von Helmholtz, as Bruno was from neo-platonic philosophers.

-Is it same as B.O.L. teaching? Only as far as it concerns manifestation.

-Why? Because at Mahā - Pralaya or dissolution of universe monads return to the nirvānic refuge.

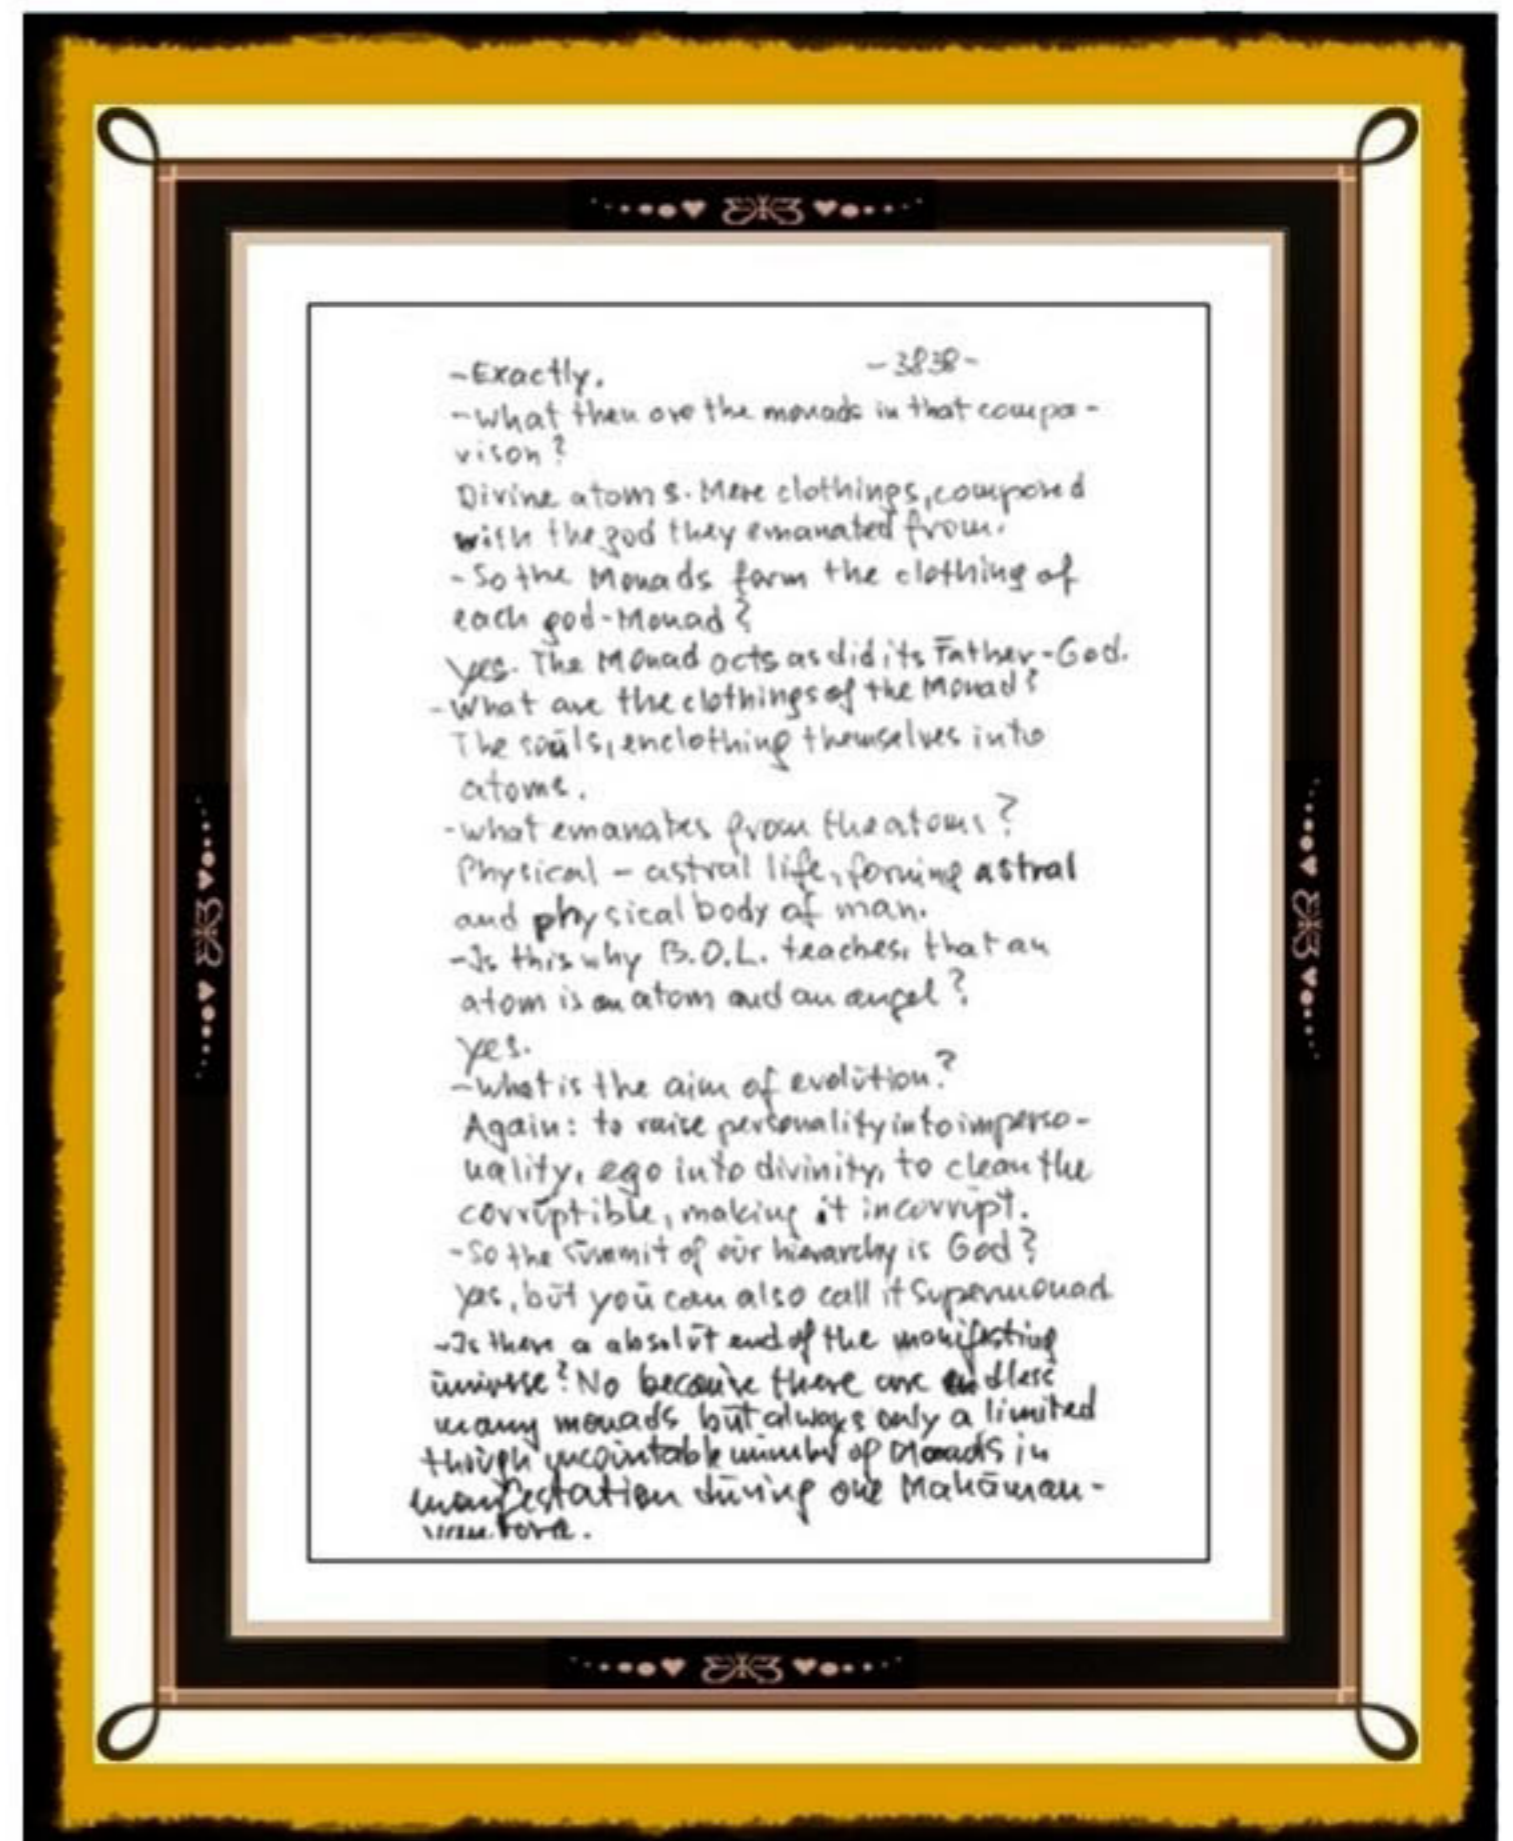

-So what is a monad according to B.O.L.? A spiritual atom, pure individuality.

-Swābhāvic core of every spiritual being?

yes.
-What is the lower Monad? Reflexion of the divine triangle.

-And the higher Monad? Divine triangle itself, upper Monad, in most of the inmost, trinity in unity, self of the Self.

-What is the lower triangle? Its emanation.

-so infinity can never end? -3833-
 Correct, because it never had a beginning.
 And the false brain-wind thinking, assum-
 ing an infinite God-creator but
 a finite creation led to the many
 religions of today.

-But B.D.L. teaches, the CREATORS
 or Elohim created or gave us our finite
 7 bodies?
 -That it true, but the MONAD they finished
 is created, timeless eternal.
 -Please instruct me now as to the Elohim?
 Before I do that, I want to know if you
 understood the teaching of chains and
 rounds. Did you?

Now THE MASTER ASKS.

-Did you understand the teaching of
 chains and planetary rounds?
 Yes, master, I did!

-We'll see. On how many globes does the
 life-wave pursue the evolutionary
 course on a planetary chain?
 On seven, Master. On 7 globes?
 -Right. From which globe to which?
 From globe A-G, master.
 -Right. What is the procedure?
 After having finished its cycle on globe A

-3840- the monadic life wave descends of globe
 B?
 -Correct. Then everything jumps to globe
 B after A is finished?
 Yes.
 -Wrap. 7 life waves evolve of globe A.
 The surplus of the mineral on globe A
 its surplus of life overflows on globe B.
 -Why? master?
 Because it feels the impact or impulse of
 the incoming vegetable kingdom. One pushes
 out the other so to speak.
 -Answer me. What is globe A of the planetary
 chain?
 A spiritual globe, master!
 -Oh. And to its inhabitants the "minerals"
 of the spiritual earth globe A are as
 dense as the minerals of our globe B
 are to us. Do you understand that?
 Yes, Master.
 -Now you can tell me what happens, when
 the animal kingdom on globe A
 impacts or pushes on the vegetable king-
 dom of globe A?
 Then, master, the vegetable or plant
 kingdom overflows on globe B of our
 chain!

-So it is. When the vegetable pushes
 downward, what does that do to the mi-
 neral on globe B?
 The mineral then is pushed down to globe
 C.
 -Yes. Now continue to accomplish the pro-
 cess.
 Now human world impacts on globe A pushing
 beast world down to globe B, vegetable
 life wave to globe C, the mineral into D
 and so on until globe G?
 -So it is during the first round. Man came
 LAST on globe A, minerals, plants and
 animals evolve PRIOR to him on globe
 A. Why is that so?
 Because teacher comes first in class when
 all students are supposed to be there?
 -For that purpose the example suffices.
 But concerning the real awakening of the
 universe, who appears first?
 THE HIGHER SUPER MONAD!
 -Oh. Now next question. Does the
 second round of earth chain have same
 order of process?
 Yes, master.
 -Wrap. Listen and learn. After first
 round on globes A, B, C, D, E, F and G

-3842- there is a long period of nirvanic rest.
 -So, master, there is no same general procedure
 of evolving from globe to globe during 2nd
 round?
 -Yes there is, BUT there is, though, a difference
 because all the "houses" built by the
 monadic activities, now ready for 2nd round
 were built during FIRST round. Why?
 To await the incoming monads of the first
 rounds?
 -As what?
 As Shivas, permanent atoms or remainders,
 from or rather of the first round.
 -Yes. So the Monads in the first round
 enter in ready prepared houses. The
 ground is prepared for the second rounds.
 Tell me, what happens, when they enter or
 enter the prepared cosmic field or
 globes during 2nd round?
 They awaken these fields.
 -Yes. Do they have to build the cosmic planes
 and globes anew?
 No. That was the case only in the 1st
 round.
 -So it is. The cosmic planes await in the
 second rounds the incoming monads by
 whom these planes were built during the
 1st round

Workers build a house and move in themselves?
-3843-

- OM. NOW the identical procedure(s) of SECOND round follows for all other rounds up to the seventh. But this -Prot is another way of explaining and describing the difference between 1st round and the following ones. Live on and leave: The lines of evolution, the basics, the foundation, have been laid during round ONE of earth-chain by the monadic life-wave. This the ones more evolved, progress faster. Do you know what that means?
No, Master.
- It means that already during round TWO on our globe the human monads leave FIRST the globe D of the 2nd round and rise FIRST on globe E of the 2nd round. The other monads descend after them.
So, Master, that means they have their interplanetary Nirvāna AHEAD of mineral-plant-animal MONADS?
- OM. And those ~~monads~~ - But also ahead of some other human monads. Solve the riddle.
THE MYSTERY OF THE FIFTH ROUND, Master!

- So it is. We as human most are now -3844- on globe D in the 4th round. But we have more advanced 5th rounds around US, meaning they are NOW spiritually high as WE would be in the 5th round. Master, are there even 6th rounds around us?

- Only one, the Gautama Buddha, was that one. He attained that state by self-effort and aided by a mystery. Now let me test you as to the 4th round after the monadic life-wave has finished the 3rd. What happened at the midpoint of our 4th round and when?
It was about 9 million years ago, Master. We reached the bottom of materiality. Many souls perished.
- Forever?
No, for that manvantara.
- So study B.O.L. and LIVE accordingly to it.
I WILL MASTER.
- So now I shall repeat the teaching of chains and rounds beginning with the moon, mother of the earth.

Earth is re-embodiment of the moon. of -3845- moon-chain we only see residues of its globe D. Once the Moon was alive as our earth is now, only some evolutionary steps backwards.

Many billion years ago, the monadic life-wave had ended its seventh round on the Moon chain and "fell" into long rest (interchain pralaya). The chain died out, globe after globe. But each dying globe sent its energy into a new lava center, thus causing 7 new globes of the earth chain. This the dying moon chain re-incarnated as living earth chain of now, leaving the moon chain as astral corpse. Thus nature repeats itself but moves forward. Everything is connected with everything else, and is, via the moon, though "dead" influence on earth actions of tide, as well as human (and animal) conception and gestation, and the development of minerals and plants as well. OM. This magnetic pull will last until almost the end of 7th round on earth, because till the planet earth will have assimilated all of moon's energies. Science wonders why Mercury and Venus have no moons. Well that's for the same reason the ~~earth~~ earth

-3846- will, in about 2 billion years, have no moon anymore. OM. Solve the riddle. B.O.L. teaches: The monadic life wave fashioned inner and outer bodies in which to grow and to work, which means, THEY were the builders of earth chain during the first round. They were life builders with no home, or rather beings, who had first to build their house, in order to live in them, and what's more, they had even to build the cosmic planes as habitats. They did it by using pre-existent matter.

M. Ulaprokti. OM. They just used their skills they learned on the moon-chain, by producing during first round the globes of the earth-chain.
B.O.L. teaches, that the human monads from the Moon chain had nevertheless during first round on earth recapitulate mineral-plant and animal existence or conditions - as the baby does in the womb during first week of pregnancy. It is stone or pebble like formed, then like tadpole structure then human.
OM. Glory to THE BOOK OF LIGHT.

387- You can imagine that those experiences did not happen unaided, as with the birth of each child, there is astral and other aid and assistance, according to Karma. We, during evolution billions of years ago, were aided by superior beings, having developed higher on the moon chain, higher than others on the moon chain. THEY entered first on globe 'a' on the moon chain, and led everything in evolution for 3 1/2 rounds up to now. THEY aided the ~~2~~ ^{2nd} ~~to~~ ^{to} humanity that descended from Manu to Earth, or rather ASCENDED. These high beings from the moon chain aided us, who were leaving as animal Manas the moon chain to become humans on earth. OM. But these "Moon spirits" could only aid us by giving us, when globe D fourth round was reached, their ASTRAL bodies, vehicles of emotions, passions and desires. That was all they were (also karmically) able to give us. If that would have been all, we would still by now be nothing more than wild animals, SLOWLY evolving. You see now, who the ELDHIM of

388- bible, etc. really were? They were no "creator", they were CREATORS of our astral body, their function is MANAD. But that Manas is NOT created, it is the being, being furnished with "bodies" in order to overcome these "loads" and "crosses" and attain liberation, by being aware of MANADIC DIVINITY. OM. Elohim is PLURAL. We had more powerful than these astral beings from the moon chain. We needed HIGHER SPIRITUAL bodies as link to the Manas. The fire of MIND had to be awakened in us. This happened during the 4th round in the third root race (when homo-sapiens was still ~~adding~~ ^{adding} as a variety has. THE MANAS PUTRA S gave us mind. Some did, others hesitated, which leads to the differently developed humanity of today. Nevertheless now we contain in us all the principles of the cosmos. Now we can fight, and win and lose until we are GODS. *Before and also after separation into sexes.

389- Right now we are still "gods in the making". Behold: Some Manasaputras (sons of mind) entered the forms, the still mindless human races. Some Manasaputras, filled with compassion, entered COMPLETELY, sacrificed themselves, others hesitated... and the Lords of Karma had an eye on them... THEN some of the higher beings gave a spark of themselves. BUT SOME rejected their projection of their wisdom to the lower vehicles. Those vehicles degenerated more and more. Oh Lawoo, spirit descends eternally into matter. Why? Either of it because of ignorance or, when liberated, in order to save others. The narrow headed millions of years ago were lucky, because IN THEM incarnated the lords of the flame, but also of dark wisdom... Again here you have the explanation, for why mankind is so different, physically, morally and spiritually. OM. The karmic purpose of the Manasaputras was, to perfect the human being. From now on they ~~humanity~~ ^{humanity} would know of good and evil and they began, also guided by false teaching, to forget their divine nature, to be gods again. At that point we saw, so THE BOOK OF LIGHT was given to us. OM.

390- Listen and learn, oh Lawoo! What became of those, who received but a spark of Manas (mind) during the 3rd root race? They, oh Lawoo became the average humanity of today: senseless fools, ruled by fools. BUT who is responsible? Aren't we all in one boat? BUT what of those who received no mind at all? They, oh Lawoo, remained mindless, which led to evolutionary and moral degeneration. Why? Because there was not yet a line drawn between human and animals (animals separated prior to humans, but the species were still close together, especially the mindless ones and the animals. So the mindless humans had to fight with the animals, which led to the ancestor of the simians, crooked, hair covered monsters, dumb. Some became human offspring of 4th round, some in 7th root race of 4th round, some may have to wait until 5th round on globe D (this earth). The sons of mind were shocked and followed now the call of karma, incarnated in those mindless. It did not save them completely. *How much of that "average humanity" is IN YOU. Are you ruled more by passion and desire than by manas?

-385- Their animalistic passions and desires were strong. So they repeated the sins of their ancestors and had sexual intercourse with animals. That led to the voice of the anthropoids. It happened about 9 million years ago according to B.O.L. DM. Thus apes derive from man, and NOT man from ape. The loss of mind caused sterility between the human and animal kingdom. But the leonine wave has its own laws, so we find until today man and who sexually mix with animals.

Back to 9,000,000 B.C. during the midpoint and after it of the 4th Round on Earth. Sex between man and animal led to those apes now known as anthropoids, BUT also to those semi-human tribes that have mostly died out now.

B.O.L. teaches that the original apes then had even one language. The Atlanteans eliminated them almost completely, and permitted only the lowest developed apes to survive. They became the direct ancestors of the "speechless" apes of today. DM.

-3852- Great Chohan, who is god?
First tell me, what you mean by god.

- A creator? does he exist?
You are your own creator, although your 7 bodies were provided by elohim.
- How do theologians define god?
That he manufactured the world and set it in motion, as a perfect god. Though that is impossible.
- Why?
A perfect god would never have created this imperfect world. Like create like.
- They say, god created us imperfect, as created we are with free will?
That is perversion pure, because an almighty omniscient god must have known even BEFORE he created us, how we would use that "free will", so we were not free will but were created to fall.
- So who is god?
Each of us is god in the making, or A god in the making. The unmanifested highest god or spiritually highest god in making, that he is the superman.
- What did the ancient think about god or gods?
B.O.L. teaching

-3853- Who are the gods?
They are spiritual entities, sub-worlds to be emanated through the super-world into manifestation. The gods are higher inhabitants of nature.

- They are subject to the will of higher Masters? Yes, in the same way as we are to the animals, etc.
- Who is the Christian god Jehovah?
Jehovah is not what the Christians think he is. Jehovah is not a very high god in the hierarchy of spiritual beings. For sure he is not a creator god who created the entire universe. He is one of almost endless many beings, or planets in the universe. Jehovah and his last body is planet Earth and was prior to that planet earth.
- So Jehovah has gods above him?
He sure does.
- Who are those superior to Jehovah?
Divine Architects, spiritual builders, planners and Thinkers of the kosmos. They order Jehovah, he follows order, as good as he can. Being an imperfect "god" Jehovah has an imperfect body called Earth.

-3854- So Jehovah is but a builder?
Yes. And in no way a **cosmically** omnipotent deity, because from utter perfection springs only perfect work, and NOT this imperfect, insane world of today.

- Now I understand why today's religion calls B.O.L. blasphemous?
Yes. B.O.L. teaches the divine hierarchy is divided into Thinkers (planners and architects), and into those they command, the builders. ONE of billions of those builders is the angel of earth, Jehovah.
- Is there absolute omniscience?
No. BUT partial omniscience.
- What does that mean?
Compared to an animal we are omniscient, compared to a master wot, compared to us THE MASTER is omniscient. And so on.
- Is there an absolute god?
No. But there is a highest principle we left it cosmically. God is but the highest spiritual being in manifestation. BEYOND that P. where God and we came from, is the TRUE GOD. See "Divine message from the true god."

- How do the lokas unfold at reawakening of the universe?
 Satya loka (pūrvast) and its tāla evolve forth all other lokas and tālas, being reflections of 1st loka and tāla.
 Evolution as follows: satya loka - tapar loka - janar loka - until lowest bhūr loka (our physical world).
 - But there are seven!
 So then name the missing ones.
 - Mahar-loka, svar loka, bhūvar loka?!
 Now entire order of enrolment.
 - Satya enrolls Tapar, Janar, Mahar and svar, Bhūvar and Bhūr loka.
 OM.
 - How do they unroll? And inroll?
 As described in Hebrew and Christian scriptures: "All the host of heaven shall be dissolved, and the heavens shall be rolled together as a scroll." (Isaiah 34:4. And: "And the heaven

departed as a scroll when it is -3737- rolled together." (Rev. 6:14).
 (both describing inrolling).
 - Buddha escaped that transiency?
 Yes.
 - Are the 7 sacred planets, forming with our earth a planetary family, connected with the hosts of other worlds?
 Yes, but more intimately the 7 sacred planets are connected among themselves. OM.
 - Do we see all lowest planes of all planetary chains in our solar system?
 No, because in that case their lowest planes are above our fourth cosmic plane.
 - And beyond that 4th plane?
 There are other chains.
 - And beneath?
 There are cosmic planes and chains of whom even the HIGHEST planes are below our 4th plane.
 - So all heavenly bodies we see are 4th plane planes?
 Without exception as far as our solar system is concerned.

- What is the difference between -3738- Swabhāva and Swabhavat?
 The difference is already in pronunciation, or rather pointing at it, by pronouncing it differently. Swabhāva has a prolonged 'ā' in it, overlined, and spoken like the 'a' in father, while Swabhavat has no overlined 'ā'. This 'a' must be spoken like the 'u' in but.
 - That is just little difference.
 No, it is not.
 - But both derive from same vast Bhū?
 Yet they are different in meaning. Swabhāva means self-becoming, self-begetting. Nothing in nature is purely mechanical or soulless. Swabhāva also means, the each of us brings forth (step by step) what is IN us. Same counts for minerals, plants and animals.
 - And Swabhavat?
 It is a state of cosmic conscious-

-3739-
 - What are spirit and matter in that source?
 They are one. No longer dual in manifestation.
 - And beyond that?
 Don't ask. BE it! Therefore: Swabhavat and Swabhāva are close as words in origin, but not the same in meaning.
 - I understand! Swabhavat never descends from its own condition! It is Father - Mother, kalpic akāśic substance, while Swabhāva is self-generation of everything, of any mind and entity!?
 OM! Now you got it.
 Swabhavat is the infinite reservoir of being, consciousness, light and life.
 - So the "forces" of nature, as science calls them, derive from it?
 OM. Swabhavat is the cosmic reservoir, of beings and being - its spirit-substance.

-3740-

- Is that what is meant, when we read in Bhagavad-Gita: "I manifest this universe with portions of myself, and yet remain separate and superior thereto."?
- Yes. The Logos itself speaks there.
- Am I a Logos too?
- Yes we all are logos in our 7 fold or tenfold constitution to the Monads and their atoms (of our body).
- What is consciousness?
- Essential and unitary, but during manifestation divisible, just as cosmic consciousness of the logos does. OM.
- What is all visible?
- ~~Six-sevenths of the invisible~~
One seventh of the entire structure.
- And the other six-seventh?
- Still invisible to us.
- With what are the 7 globes of our earth chain connected?
- With the 7 sacred planets, and their sevenfold worlds or globes.

-3741-

- Please define "sacred planets".
- Enclosing divinities rather than physical bodies (light-spots).
- What about the spirit of the earth?
- It fills the globe with seeds of manas or mind.
- From where are forces paired into our globe?
- From within.
- Leading to radioactivity?
- Since about 3 million years, yes.
- Is any planetary chain a closed system?
- Yes, but it nevertheless receives from the sun and other chains force and substance.
- Why?
- In order to experience increase of consciousness.
- Is there conservation of energy?
- Yes but not purely mechanistic and materialistic as science thinks, because science thinks of this universe as a closed system, which it is not really, as already explained.
- Is there a really "closed system"?
- Yes, it is boundless infinity. That, in turn, would include all possible energies and substances such infinity.

-3742-

- contains... THEN it would be a "closed system". But our little universe, interacting with all others, is "closed" to a certain extent, but still very open and influenced by other universes, etc.
- Please give an example.
- Compare it to a room. A room is a closed system, including all it contains (chair, table, etc. incl. the person living in it). At the same time that room, that "closed system" is influenced by other energies, including air, weather, and the structure of the building itself.
- I don't understand, concerning "boundless infinity".
- That is understandable. To "infinity" or "infinite" or to such a system no forces could be added from outside, because there is no "outside" for infinity. If there would be an "outside" to infinity, then infinity would be no longer infinite.
- I begin to understand...
- Because you are chaotic, or fall less one. Continue to ask.

-3743-

- Is the sun a physical body?
- Not really, but the sun that you see is a fourth plane globe. At the same time the sun is a ethereal body in 6th and 7th state of matter.
- How does it manifest?
- As light and radiation.
- What are the 7 sacred planets?
- Saturn, Jupiter, Mars, the Sun, Venus, Mercury and the moon. Two of them, sun and moon, are substitutes for secret planets.
- Who are these secret planets?
- Revealed in B.O.L.
- What are the secret sacred planets to us?
- Intimately connected with us... They are all together an Oglobad.
- Why?
- Earth chain is the 8th in it (but not second)
- Are there more than 7 sacred planets?
- Yes, 12 of them, which includes the "five highest".
- So our planetary chain has actually 12 globes?
- Yes, built by the 12 sacred planets or planetary chains. OM.

-3744-
-I still don't understand how the 7 families or life-waves pass from globe to globe of the chain?
In succession.
-For what purpose?
To gain experience of the forces of matter including of the various cosmic planes. Overcome desire for it, and you have overcome.
-What is the Christian god?

A creator, a demiurge, which classifies him or it as one of endless many elohim, since creation implies LIMITATION, or rather restricted activity.

-Within something greater?
YES. You begin to understand.
-But what is the THAT or TAT of or in the VEDAS?
neither creator nor non-creator. It is simply DEVOID of attributes.
-Buddha attained it?
Yes. But he even overcame TAT.

-3745-
-Is it the Adi-Buddhi of northern Buddhism?

Yes. It is their "Primal Buddhi".
-Are there other names for that cosmic reservoir Svabhavat?
"Akāśa" of Brahmanical scriptures, cosmic "waters" of Hebrew Old Testament.

-Are lost souls "soulless beings"?
No. Lost souls have a monadic ripture.

-What is that?
The "golden thread" uniting the lower thinking entity with the higher self is ruptured completely.

-broken completely off from its higher self?

Yes. Such a being is truly lost.

-Where does it end?

Such being or monadic reflection will sink at death into the "Earth sphere".

-The planet of Death?

-3746-
-yes. Many worldly and religious rulers are among such lost souls.
-But what then is a soulless being?
Its golden thread, connected with the higher self has been worn, very thin, but not yet ruptured completely.
There is still hope...

B.O.L. teaches: lost souls are beings who are or were so utterly complete: EVIL (black magicians, etc.) that they cut themselves off COMPLETELY from their Monad. But "soulless" beings are not yet that utterly evil.

-How can "soulless" beings be saved from becoming "lost souls"?

One single holy impersonal aspiration suffices to cause reunion with the Monad. I give you an example: Even when one just has THE BOOK OF LIGHT in his home, WITHOUT even having read

-3747-
the book, he can NEVER be or rather become a lost soul.

Souless people live almost in their lower principles: Food and sex.

-In other words THE MAJORITY?

Yes. Such, or rather most, people have no moral sense, but are often mentally and psychically very strong. We find these people also often as worldly and religious leaders, abusing their power.

So hell awaits them after death, and then a new life of pain and suffering.

-so the world of today is in a terrible situation?

-yes. I see no other salvation for all of us but THE BOOK OF LIGHT.

-May it save us all. What are we human beings?

We are composite beings, with an immortal imperishable monad.

-What with the Monad of a "lost soul"?
The Monad will forget such being and

reflect newly into material world. -3748-

- How did I become what I am?
 you loved for it, or rather how you
 earn the result of your loving.
 That teaches you what you should
 want and what not.

- What happens when we only think
 selfish thoughts, running down -
 words?
 The golden thread uniting you with
 the monad, wears out. Some, though,
 have a "silver thread".

- Please reveal to me the secret of the
 planet of Death and what it does
 to "lost souls".
 No.

- Please reveal to me the secret of
 the planet of death!
 Now that you ask all in all 3 times
 I shall respond. Spiritually evil peo-
 ple, among them most of our worldly
 and religious leaders, shall suffer
 avichi-nirvana on "The Planet of
 Death". They suffer "eternally".

- Give an example please. -3749-

Imagine someone drills on your teeth,
 and their NERVES but without you
 losing consciousness. A lost soul is their
 victim of revenge, hatred and autopain,
 generated by itself! It is a fallen
 spirit, crystallized into matter, ex-
 perencing on "the planet of death"
 A EONS of misery, until it fi-
 nally dissolves.

- What is a lost soul in comparison to
 of a Chohan?
 A Chohan is the high pole of con-
 sciousness, a lost soul is the low
 pole.

- When will I become a master?
 When your corruptible will become
 incorruptible.

- What with Monads whose vehicles
 were lost souls?
 Those Monads reflect again, but
 it may happen that they remain
 behind, as the racial life wave moves
 on.

- They will have to repeat the round?

- I have questions to planetary chain
 of earth and its rounds. -3750-

Ask me.

- Earth chain has seven globes. Where
 does the life wave begin on these
 globes A, B, C, D, E, F and G?
 It begins on globe A or rather be-
 gan there, running through cycles,
 then entering globe B, completing
 there, entering C, completing there
 entering D.

- Where are we now?
 On planet D in the fourth round,
 half way around and a bit more.

- In which race are we on that 4th
 round on globe D?
 In the 5th root race.

- How many races to be?
 7 root races.

- Of what are the 7 globes of the plane-
 tary chain built?
 Of the elemental bases of the 7 principles
 of nature.

- Why are they called rudiments?
 Not because they are incomplete but
 root-things, originants.

- Is there a Sanskrit word for them?
 Tattwa. It means "a reality".

- The ABSOLUTE reality?
 No, but the root differentiations of
 any Hierarchy.

- Are these elements the "Bhūtas"?
 Yes. Each element springs from its pre-
 decessor (superior) giving existence to
 another. This other is then its inferior.

- How many elements are there?
 B.O.L. teaches 7.

1.) The principle element Ādi-Bhūta
 emanating 2.) Anūpapādaka - tattwa,
 followed by Aether, Fire, Air and Water.

- I don't understand the first two.
 The first is the element
 having as principle Ādi-Tattwa. The se-
 cond does not proceed from anything else,
 hence anūpapādaka or "parentless".
 *in manifestation

- From where does it proceed? -3752-
 From itself.
 - I don't understand...?
 That is understandable, because human consciousness does not recognize them.
 - Where and how then are they recognized?
 In The Book of Light.
 - How was the situation on globe A First Round?
 Actually there are 12 globes of earth chain, but the upper 5 are super-spiritual, so we leave them for now and move to the lower seven, which have worlds in manifestation, from globe A-6.
 - Are the globes there from beginning of the round?
 No. It began over 2 billion years ago. From the dying moon came over a sleeping sphere.
 - That sphere was or became globe A of the earth-chain?
 Yes, because it was prior to that, globe A of the moon chain.
 - By what was that sphere activated?
 By the monadic life wave switching from moon chain.

Therefore: To use the term "closed system" to INFINITY is indeed a poorly chosen term. But find me another one!
 - I can't!
 Then use it wisely. Because the same remark applies to all entropy.
 - What is that?
 Scientific speculation.
 - So the idea or theory of "closed system" as presented by science is wrong?
 It sure is. It applies only to "closed systems", limited by time and space, and vanishes then. It is like a clock winding down, not able to wind itself up again.
 - So what is a "closed system" really?
 A system of SECOND order, because its energy always derives from another, IT ENCLOSING system.
 - Oh Great One, now I understand!!
 There is only one really and truly closed system... NIRVANA!?
 O.M.
 Other than that there are systems within systems.

- what does science not understand?
 That there is no dead matter! Whatever you see is the state of consciousness of a living being!
 - That includes stones and plants?
 Yes, everything!
 - What does therefore B.O.L. teach further in that matter?
 Every such "closed system" as science names it, be it universe, galaxy, solar system, sun, planet, etc. etc. IS AN INDIVIDUAL! IT IS ALIVE!
 Wake up, ye confused scientists. OPEN UP your "closed systems" of thinking!
EVERYTHING IS ALIVE!
 Even a stone, car, house, spoon, fork, carpet, book, knife, hat, dress, paper, pen, etc. YOU name it and... IT IS ALIVE!
 Wake up from your materialistic dream, ye dreamers!!
 - Is the B.O.L. pantheistic?
 Let's define Pantheism first.

ABOUT "GOD"! -3755-
 It is the teaching that there is a divine essence behind and within all beings. From it the entire universe flows forth and back.
 But such view degenerated into, or led to, Christian view, that god is "infinitely" or a person. But infinity can't be a person, since person implies limitation. On the other hand the Christian god is known as being "without body parts, or passion."
 - So what is god?
 When in manifestation, the Supreme. In its higher aspect that from which the world emanates and into which it emerges again: NIRVANA. That is the highest principle. Everything else is impermanent illusion, O.M.
 - We are in the 4th earth round 3 and 1/2 to come until the 7th. What will happen in the 7th?
 Having reached the seventh, earth will project its life essences into laya centers.

-3756-

In order to form the future child of earth-chain.

- What will happen to our earth then?

It will become the moon of its (future) child. As the moon is dead now, our earth will be dead then.

- and then?

disappear in ether.

- But what remains to form the new chain?

- Life atoms. They rejoin to form the new planet and its chain.

In the same way after your death the life atoms of your body will rejoin again and form karmically your new body...

- How does nature work?

Nature repeats herself, but no two processes are identical.

- So in my body are the identical atoms from past life?

yes. And the same atoms will form your body in next life. *life-atoms

-3757-

- Then there is no real growth?

yes there is, because the atoms or vayas always anew according to your state of consciousness.

- So even when tomorrow the earth with everything on and in it explodes, the life atoms remain?

yes. Only at Mahapralaya they are absorbed again in NIRVANA to reappear again next Mahamanvantara. OM

- So cosmic nature is an organic entity?

yes.

- What is the Zodiac in that connection?

Each globe of our chain and each of the 12 sacred planets are linked to the Zodiac.

- Please name the 12 sacred planets and their connection to Zodiac. * even after atomic explosion.

-3758-

Sun-Leo, Jupiter-sagittarius, Venus-libra, Saturn-Capricorn, Mercury-Virgo, Mars-scorpio, Moon-Cancer. Now the 5 higher: Jupiter-pisces, Venus-Taurus, Saturn-Aquarius, Mercury-gemini, Mars-aries.

- Some planets repeat themselves? Visible orbs furnish mankind with outward and inward characteristics. Upper globes are their reports with our Monads and spiritual faculties.

- can I touch a planet with my thought?

yes. The manas rupa then expands until to that planet.

- Do Neptune and Uranus belong to the 12 sacred planets?

-3759-

No. Uranus belongs to universal Solar System, is an integral part of it.

- So Neptune originates in this solar manvantara?

No. Neptune was captured, like atoms sometimes capture electrons of other atoms. In the same manner the cosmic electron Neptune was captured into our solar manvantara. Neptune is a captured comet or former comet.

- Neptune was a comet?

So was earth and every other planet. All comets are first stage of planetary evolution.

- of suns too?

yes, because there are planetary comets

- what about Encke's comet?

-3760-

Belongs, if still existing, to our solar system.

- What about the paths of such comets around the sun?

Ellipses shall tend to become more circular.

- What happens then to those comets?

They 1.) are either captured by the sun and destroyed or 2.) they settle as planets (survival of the fittest.)

- What is this first settlement as a planet?

A condition preceding the first planetary roved.

- Embodiments of what?

Of former planetary chains, returning now to a new manvantaric course in the solar system.

- Is Neptune connected with the 12 houses of our Zodiac?

No, because Neptune is a capture.

*ellipses.

-3761-

- Is there separation of the individual from divinity? ^{misunderstanding}

No. And that led to loss of occult truth, now reawakened in B.O.L.

We are all one but individually different in evolution.

- What are the gods to us?

Their destiny is ours.

- What is SPIRIT?

It is the summit, the seed or noumenon of any hierarchy in the universe.

- What is matter and substance?

It is the EXPRESSION of spirit, radiating downwards, revealing the hierarchies.

- I don't understand.

Spirit is something that has inherent spontaneously arising energies. You can use them or not.

- So I am NOT that spirit?

No. You are the MONAD, but IN YOU in your spirit arise those desires and energies.

- Buddha overcame them?

OM.

- So spirit is the primal source of...

-3762-

- Are the mānasa putras our higher selves?

Not at once, they are the grower in our higher selves, therefore they are not our HIGHEST SELVES. Solve the riddle.

- Where and when did the Mānasa putras incarnate in mankind?

These Mānasa putras or Dhyanis incarnated primarily in the 3rd Root-Race on Earth in this Round many millions of years ago in the Third Root-Race on this planet.

They saved us.

- From what?

From AEONS of animality and unspeakable degradation and from ages of wandering on a pointless path. Keep the rule unbroken, follow the right hand path.

- What would be the left hand path?

Most of mankind follow it now by wiles and guile and IMMORALITY of many kinds.

- Where are they from, the Mānasa putras?

They derive from the "Hierarchy of Compassion". They have COMPASSION.

-3763-

With us they are our part and sometimes All of them as Manas or mind. OM to the Mānasa putras.

They derive from the light-side of Nature. Were it not because of them we would still crawl like apes - uhu, although we did NOT derive from apes!

- So the Mānasa putras are our higher nature?

Yes. They, as spiritual beings, guided our ego.

- Are they more evolved than us?

OF COURSE! Is the teacher mentally more evolved than the student? Of course.

- How did the Mānasa putras guide us from their consciousness ours?

In the same way as you light with just ONE lighted candle many candles.

- I did not yet understand Anupapā dāca-tattva?

It means "parentless".

- Yes, but how can it then still have source or origin?

It is itself the primal seed of Individuality.
